

Proceedings of the Madras Government, Revenue Department,

7th June 1872.

No. 73. Read the following Proceedings of the Board of Revenue, dated 30th May 1872, Miscellaneous No. 3,874 :—

Read the following letter from the Sub-Collector of Tanjore, to the Collector of Tanjore, dated Negapatam, 13th May 1872, No. 180.

I HAVE the honour to bring to your notice that the building in which my Office is held, is altogether unfit for a Sub-Collector's Cutcherry. It is a single room, measuring 24 feet by 14 feet, with a Veranda 7 feet wide. It is 12 feet high.

2. The timber of the roof has become so rotten as to excite apprehension.

3. My Clerks and Records are kept in a separate small building, which is as uncomfortable and insufficient for them, as my Office is for me.

4. The building and site belong to Government, and there is abundance of room in the compound for the construction of a proper building. If it is the intention of Government to supply buildings, resembling the standard plan, circulated with the Proceedings of the Board of Revenue, dated 4th December 1871, No. 4,928, I think few Sub-Collectors' stations could show more urgent need of a respectable Cutcherry than Negapatam.

No. 195.

SUBMITTED for the orders of the Board of Revenue, and with a request that Government may be moved to call on the Superintending Engineer, 6th Division, to submit an Estimate, for providing the Sub-Collector with a suitable Cutcherry, according to the standard plan. A new building is most urgently required, and the Tahsildar of the taluq is provided with infinitely better accommodation. The present building was never adapted for anything more than a Head-Assistant's Office, and, besides being in a very old and rickety condition, does not contain anything like the accommodation which is considered necessary according to the standard plan.

SIR,

I have the honor to bring to your notice that the building in which my office is held is altogether unfit for a Sub-Master's katchari. It is a single room measuring 24' by 14' with a verandah 7' wide. It is 12 feet high.

The timber of the roof has become so rotten as to excite apprehension.

My clerks and peons are kept in a separate small building which is uncomfortable and insufficient for them as my office is for me.

The building and site belong to Government and there is abundance of room in the compound for the construction of a proper building. If it is the intention of Government to supply buildings resolutely the standard plan circulated with the Proceedings of the Board of Revenue dated
