G.O. No. <u>795</u>	Press ~~Mis.~~
Dated <u>28.6.1872</u>	

Not to be folded or roughly handled

No. 280. Read the following letter from Mr. W. F. M. DENNISON, Batavia, Java, to the Officiating Chief Secretary to Government, Revenue Department, Fort St. George, dated Buitenzorg, ——— 1872:—

I PRESUME to address and request the Government of Madras, having on a previous occasion been favoured with their kind consideration in having forwarded to me samples of Carolina paddy-seed which, however, never reached its destination, although I had received Bill of Lading, and inquired again and again at Singapore, no such paddy came to hand; and I now beg to trespass on their kind assistance, trusting you will not consider me as having exceeded the bounds of propriety in addressing you on a subject in which I take a great interest; and knowing how greatly the Madras Government are desirous of promoting the interest of agriculture generally, I do so with the hope of obtaining your sanction to place the following request before the Board of Revenue.

2. Half yearly the Commissioner of the Nilgiris forwards to the Secretary to Government, Fort St. George, the Superintendent's Cinchona report, Ootacamund, and copies of this report are forwarded to several departments, among others, to the Superintendent, Cinchona Plantations, Java, who very often obliges me with the perusal of this document. My request now is to be likewise placed on the list so as to have this report direct from Madras:—

W. F. M. DENNISON,
Owner of the Kuriapan Estates,
Buitenzorg, Java.

3. As you are aware, change of seed is of the greatest value for strong and healthy plants, I should, therefore, so much wish to obtain fresh seeds from the Nilgiris of the—

C. Calisaya.
C. Succirubra.
C. Micrantha.

and, therefore, presume to write and request you to allow me to obtain them.

4. Any expenses which are to be incurred I will forward through the Agent of the London and Chartered Bank, Batavia. I own 13,000 Acres of land, population about 17,000, planted on the feudal system with rice, of which I have one-fifth of the crop; the men turn out one day in seven to work for me as landlord, and make roads, canals, etc., (unless they have commuted this and paid me in produce or money). Besides this paddy-culture I have tea, cinchona, and rhea gardens which I cultivate with coolies; many of the same men who have worked one day in seven as above, if they like, then work as coolies in my gardens, for which they obtain each 25 cents a day (about 5d.)

5. If I can be of any service to you in this part of the world please to dispose of me.

No. 281.

ORDER THEREON, 28th June 1872, No. 995.

Miscellaneous.

THE Government have much pleasure in complying with Mr. Dennison's request.

*Proceedings of the Madras Government, Revenue Department,
28th June 1872.*

2. Copy of the Cinchona report will, in future, be forwarded to him, and the Commissioner of the Nilgiris will be good enough to arrange for a supply to him of fresh seeds of the kinds specified if, or when, available. The parcel had better be sent to the Government Office, Madras, for despatch.
