Proceedings of the Madras Government, Revenue Department, 28th January 1873.

No. 214. Read the following Proceedings of the Board of Revenue, dated 18th January 1873, No. 74:—

Read the following letter from W. S. FOSTER, Esq., Acting Collector of the Godavery District, to the Secretary to the Board of Revenue, dated Cocanada, 10th December 1872, No. 382:—

In forwarding, herewith, a copy of the Salt Deputy Collector's letter, dated 28th ultimo, No. 125, together with a sketch of the salt-pans attached to the villages of Mogaltur and Linganaboynacherla, I have the honour to state that I have consulted the District Engineer on the point referred to in paragraph 4 of the above letter and that he is of opinion that the Mogaltur Salt-pans and the old supply-channel may be subject to the overflow of fresh water to such an extent that he considers it advisable to leave them alone and to use the pans of the Linganaboynacherla Village.

2. I request, therefore, that the sanction of the Government may be obtained for the following alterations in the estimate sanctioned in G. O., dated 28th January 1868, No. 230:—

As per sanctioned Estimate.				As per Estimate now prepared.

3. A fresh estimate, prepared in accordance with the alterations mentioned above, as well as a copy of the one originally sanctioned, is herewith submitted. In the former the depth of the new supply-channel is entered as one yard, which will be the average of the cutting required. I have requested the District Engineer to have the levels taken for this channel, on receipt of which they will be communicated to the Board and the work carried out accordingly.

4. If the sanction of the Government be not received in time for the several works referred to above being carried out before the manufacturing season sets in, I shall make the best arrangements I can for making salt at Mogultur this year.
