Sir,

Assessed waste land N^o 250, 72 cents in extent in the village of Poramboke of Bezawada Talook, is long narrow strip of land lying between two danks or paths. Darkhast was made for this land by a ryot, and others having opposed it, the Head Assistant Collector personally inspected the spot. He rejected the Darkhast, and recommends that the strip be added to path. The proposal seems a judicious one such a piece of land would only tempt a puttadar to encroach on the path and get himself into trouble. I have the honor to request permission to transfer it to the head Poramboke.
