

24th October 1873.

No. 221. Read the following Proceedings of the Board of Revenue, dated 1st October 1873, No. 1,995:—

Read the following letter from W. R. ROBERTSON, Esq., Superintendent of Government Farms, to H. E. STOKES, Esq., Acting Secretary to the Board of Revenue, dated Saidapet, 26th September 1873, No. 712:—

I REGRET to state that from an oversight the stock of imported Carolina Paddy seed has been allowed to get too low and that I am unable to meet in full the demand for this grain which has sprung up since the announcement of the prizes for competition in growing this paddy. This oversight is the more to be regretted as the sowing season is so close at hand and there are applications for seed yet to be met. Under these circumstances, I have the honour to request that a telegram may be forwarded to the Government of Bengal (Agricultural Department) requesting that a supply of not less than ten barrels of imported Carolina Paddy seed may be despatched to Madras by the first steamer from Calcutta. It appears, (*vide* Proceedings of the Government of India printed with G. O., No. 338, of the 19th of March 1873) that 100 barrels of the last shipment of Carolina Paddy were retained in Calcutta for the use of the Government of Bengal.

ORDERED that the following telegram be despatched:—

“To the Secretary to the Government of Bengal, Agricultural Department.

“Carolina Paddy seed required ten barrels. If you can spare please send by next steamer to Madras.”

2. The Board communicate their above Proceedings to Government. The want of paddy seed is emergent, and, as they feel bound to meet it in the case of those who may come forward to compete for the prizes which Government has offered, they despatched the above telegram to the Government of Bengal direct.

No. 222. ORDER THEREON, 24th October 1873, No. 1,160.

Miscellaneous.

THE Board's action is approved, and His Honour the Lieutenant-Governor of Bengal will be addressed on the subject.

2. The Government are glad to learn that so great a stimulus has been given to the experimental cultivation of Carolina paddy. When distributed, each parcel of seed should be accompanied with printed instructions in the vernacular.

3. It seems probable that a still further supply of seed will be required, and the Board should report on this point at an early date, so that, if necessary, timely application may be made to the Government of India.

Sir,

I regret to state that, from
an oversight, the stock of imported
Carolina Paddy seed has been
allowed to get too low, and that
I am unable to meet, in full, the
demand for this grain which
has sprung up since the announce-
ment of the Prizes for competition
in growing this Paddy. This over-
sight is the more to be regretted,
as

as the sowing season is so close
at hand, and there are appli-
cations for seed, yet to be met.

Under these circumstances
I have the honor to request that
a Telegram may be forwarded
to the Government of Bengal
(Agricultural Department) re-
questing that a supply of not
less than 10 Barrels of Imported
Carolina Paddy seed may be
despatched to Madras by the
first Steamer from Calcutta.
It appears, vide Proceedings
of the Government of India,
printed with Government Order
No. 338 of the 19th of March 1873
that 100 Barrels of the last
shipment of Carolina Paddy
were

were retained in Calcutta³ for the
