Proceedings of the Madras Government, Revenue Department,

8th January 1873.

No. 23. Read the following Proceedings of the Board of Revenue, dated 18th December 1872, Miscellaneous No. 8,394:—

Read the following letter from the Acting Collector of the Chingleput District, to the Secretary to the Board of Revenue, dated Saidapet, 11th December 1872, No. 520.

In continuation of my letter No. 509 of the 5th instant, I have the honour to forward an extract from the report of the Acting Sub-Collector on the damage done by the late rains in the Sub-Division.

Enclosure No. 1.

From the Acting Sub-Collector, to the Acting Collector, Chingleput, dated 6th December 1872, No. 756.

I have the honour to acknowledge your No. 1,305 of the 3rd instant, received to-day, requesting me to send, by return of Post, a report on the damage done by the rains of the past fortnight, more especially as regards the injury to the Carnatic Line to Conjeveram.

2. In reply, I have the honour to state that 34 breaches to tanks; some of them, such as Tirupakule of the 2nd Class, have been reported from the Conjeveram Taluq. Up to date those in the taluqs of Chingleput and Madurantakum have escaped. The trunk road near Madurantakum was breached in two places owing to a flood in the Kiliar, which, as you are aware, flows through the Madurantakum tank. The road between Conjeveram and Chingleput is reported to be well nigh impassable in parts.

3. No report regarding damage to the Carnatic Railway within the Sub-Division has been received: but I gather from the accounts published in the newspapers that portions of it situated within the district of North Arcot were washed away at the end of November. The Tahsildar, in a report dated 24th ultimo, mentions an interruption for two days on the line, owing to floods in rivers and waste channels. I have requested him to state distinctly whether this refers to the Sub-Division. I may mention that the only river the Kortelliar or Kullar crosses the line in North Arcot.

4. Up to date since 1st January 63·75 inches of rain have been registered at Chingleput. The Palar, in fresh more or less since the early part of October, has been in high flood since the 22nd November, and is still totally impassable except for catmarams.

5. No serious damage to property appears to have taken place. Huts and mud walls have subsided here and there after the manner of such structures.
