No. 1,780.

PROCEEDINGS OF THE BOARD OF REVENUE, dated 9th September 1873.

Read the following Proceedings of the Madras Government, dated 28th July 1873, No. 790, Revenue Department:—

ABSTRACT.—*Earth-salt.*—Directing the Board of Revenue to instruct the Collectors of Cuddapah, Bellary, and Kurnool, not to permit the opening of any new places for the manufacture of — to make proposals for licensing those already in existence at increased rates of tax in 1874 to be gradually raised until 1879 when they should reach a sum equal to the tax on marine-salt, to induce the voluntary cessation of manufacture by the offer of compensation, and to negotiate with the Nawab of Banganapully and the Jaghiredar of Sundoor for the suppression of the manufacture of — in their territories; and requesting the Board to consider about the employment of a preventive guard on the Hyderabad frontier.

THE above Proceedings of Government are forwarded to the Collectors of Bellary, Kurnool, and Cuddapah.

These officers are directed to notify at once that the formation of new modas or places of manufacture of salt is absolutely prohibited.

2. They will furnish the Board at as early a date as possible with the particulars which will be needed to complete the statement which the Board are directed to prepare in paragraph 16 of the Proceedings of Government.

3. The rate of taxation to be adopted is Rupees 1-13-0 per Maund for the number of Maunds estimated to be manufactured at each moda from and after the year 1879. At present the tax where levied is extremely small; it having been roughly estimated that the average tax per moda in Bellary is Rupees 4-4-0 and the average produce about one garce per moda. It will be necessary to license those modas which already exist on the following scale of rates:—

Vide paragraphs 27, 37, 44, Mr. Thornhill's Report.

1878	150 0 0	1 4 0
1879	217 8 0	1 13 0

For the issue of these licenses a rough classification of modas must be made.

4. From the want of Capital among the class owning these modas it may be expected that if the present orders are enforced, and the full license duty collected on their produce fairly estimated, the great majority of the modas will be closed before the highest rates are reached.

5. The rates given above should be at once advertised in the District Gazette: a notification will also be issued by Collectors who will use every means in their power to ensure that the owners of modas are informed of the change of system to be introduced. Collectors concerned will also consider the rates of compensation to be awarded to owners who decline to be licensed on the terms laid down: these should represent four or five years' purchase of the net profits, which have been assumed to be about Rupees 20 per Garce or a little more, and report without delay.

6. The Collector of Kurnool will report specially on the arrangement that seem to him feasible for the control or suppression of the manufacture in Banganapully, and the Collectors of Bellary and Kurnool, on the number of preventive guards required at the ferries.

7. The Collector of Bellary will make such arrangements as may be necessary with the chief of Sundoor.

8. These proceedings will be sent to the Inspector General of Police for his information.

9. A Form of notification is enclosed.
