SIR,

With reference to the Board's Proceedings of the 27th Ultimo No. 3959, I have the honor to inform you that the lands alluded to in the Compensation Statements under reference were not taken up for any Channels, neither were any Channels dug in them.

2. They were rendered uncultivable in Consequence of Channels Caused by the rain-fall forming in them, and they were therefore entered in

in the Statements under the head of those in which natural causes have operated to destroy their value.

3. Out of the Kambhatki Inam of the Curnum of Hiravadana= =hully an extent of 83 cuts only has been actually lost by these Channels but during the rains water from the Channels flows over the land and it has be= =come uncultivable and has consequently been left waste for the last 40 years.
