To

THE SECRETARY TO THE GOVERNMENT OF INDIA,

FINANCIAL DEPARTMENT.

Miscellaneous.

SIR,—In your Officiating Under-Secretary's letter dated 4th January 1873, No. 54, the Government of India, referring to the Indent on England for Sykes's Glass Hydrometers, forwarded with my letter of 13th December 1872, No. 1,678, inquire whether this Government is willing to try the cheaper "Guy Lussac's Alcoholometer" recommended by Dr. Macnamara, Chemical Examiner to the Government of Bengal.

2. I am now directed to forward the accompanying Proceedings* of the Board of Revenue, being a reply to the above-mentioned reference. The Board, though desirous of having some of Guy Lussac's Glass Alcoholometers for trial at the Presidency, consider that the instrument would, from the system of graduation adopted, be unfit for the use of the local gaugers. The Indent referred to by the Board in the latter part of paragraph 1 of their Proceedings was forwarded to the Government of India with my letter to your address, dated 20th December 1872, No. 1,708.

* Dated 29th January 1873.

I have the honour to be,
Sir,
Your most obedient servant,

(Signed) D. F. CARMICHAEL,
Secretary to Government.
