Came from Bellary yesterday, were detained at the Areal Station. This circumstance having been telegraphed to Madras the Railway Engineer & other officials came from Madras with necessary materials and commenced to form a fresh line close to the old and the work has been completed this day. The Mail Train which had to start for Madras yesterday morning started rather late & arrived at the spot in the afternoon. The passengers appear to have been made to alight from that train and to get into the other which was waiting on the side and similarly the passengers from the latter with carriages and attendants to the other side, and the train passed. some slight injury on the head.
