Dear Galton

I spoke to Sims, chancing to see him first after the Salt packet arrived - he said "send it to Chemical Examiner for 'analysis & report' - make it a B.O.

I have not opened the packet; will you do so, sealing it up again - Copies shd be taken of the writing on the slips of paper (we will probably find round each assortment - to identify the locality whence the particular Salt comes - supposing the Chem. Ex. to lose these slips - & each receptacle shd be numbered in England if not done already - Yours

D McKendrick

List of samples of Salt received from the Burma Board Office and sent to the Chemical Examiner for analysis.
