

*Proceedings of the Madras Government, Revenue Department,
22nd April 1873.*

No. 94. Read the following Proceedings of the Board of Revenue, dated 17th April 1873, No. 593 :—

Read the following letter from G. VANSAGNEW, Esq., Collector of Nellore, to J. GROSE, Esq., Secretary to the Board of Revenue, dated 22nd March 1873, No. 661 :—

With reference to paragraph 12 of the Board's Proceedings No. 51, dated 15th January 1873, I have the honour to submit an Indent for four of the Test Glasses described. Two parties are working now in the district in stamping weights and measures.

2. In reference to paragraph 13 of the Proceedings under reply, I beg to state that Sriharikota is a place where also Price Tests have been introduced. The measure used there is the half Seer. A tabulated statement of the results of the measurements made with it is enclosed.

3. As required in the latter part of paragraph 5 of the Proceedings, a correct Seer has been circulated among the several stations, and the results of the measurement and weighing of salt will be communicated after replies from all the stations have been received.

ENCLOSURE No. 1.—Indent.

ENCLOSURE No. 2.—Statement.

THE Board have been informed by the Inspector-General that there are no glasses of the kind desired by the Board in store. Government will be requested to cause a supply of 150 of each kind to be obtained from England at an early date.

2. The Collector should have stated the diameter of the Sriharikota half Seer; but there seems no reason to doubt that the conversion prescribed for the half Seer in the rest of the district may be adopted.

No. 95. ORDER THEREON, 22nd April 1873, No. 421.

Miscellaneous.

ORDERED that the Indent received with the foregoing Proceedings be forwarded to the Government of India for transmission to the Secretary of State.

(True Extract.)
