Proceedings of the Madras Government, Revenue Department,

10th October 1873.

Read the following Proceedings of the Board of Revenue, dated 4th October 1873, Miscellaneous No. 6,648 :—

Read the following letter from J. H. MASTER, Esq., Collector of Bellary, to H. E. STOKES, Esq., Acting Secretary to the Board of Revenue, dated 2nd October 1873, No. 336.

THE season report for the past week is favourable. Rain has fallen in nearly every taluq, and, though the quantity is small, it has been sufficient for the dry crop.

2. The prospects of the district are again hopeful. Rain-fed tanks generally have not received proper supplies, but river-fed ones, and those with large water-sheds, have had a fair quantity. The distress as regards pasture is not over, but grass is springing up. Dry fodder is, of course, very dear.

3. The distress as regards drinking water in the Bellary and Adoni Taluqs is not over either, as it takes some time for the rain to affect wells when they have run quite dry.

4. Agricultural operations give ample employment to daily labourers. The public health is generally good, and prices are steady.

SUBMITTED for the information of Government.

ORDER THEREON, 10th October 1873, No. 56.

ORDERED to be recorded.
