From

The Superintendent Revenue Survey.

To

The Secretary to Government  
Revenue Department.

SIR,

In continuation of Para 1 clause IV of my  
letter of the 28<sup>th</sup> Ultimo No. 2269, I have the honour  
to forward copy of a letter from my Deputy Mr.  
Cardozo reporting the arrangements he has made  
regarding the supply of demarcation stones without a  
contractor for the demarcation of Adoni talook Bellary  
District.

I have the honour to be  
Sir

your Most Obed<sup>t</sup> Servant

Christie

Field stones

5. There are about 20 quarries in the Talug but these are nearly all situated in the Eastern half and out of the 204 Villages 100 will have to cart stones from 10 to 15 miles. Every effort will be made to stock these before January next when the cotton season begins and carriage is scarce.

6. In the meantime work will be carried on round Adoni Marking Village boundaries has already begun and 15 men will I trust be shortly at work. The field demarcation will begin in about a month.

7. I beg to be informed what sum is allotted from the Budget grant for 1872-73 for this purpose. I estimate that in addition to the 75000 Rupees allotted to A. 2 party Rupees 12000 will be enough to prevent reduction of present establishment working in Kurnool. Half of this sum of Rs. 12000 will be set off against the expenditure during March 1872 ordered to be debited to 1872-73 in Docket A. 1014 dated 7<sup>th</sup> June 1872. The remainder will allow of 50 Amins, 10 Deputy Surveyors, 1 Deputy Inspector, 1 Sub Assistant & 1 Assistant Sup<sup>t</sup> being employed in the Adoni Talug during the remainder of the current official year.

Reference. G. O. No. 1200 dated 14<sup>th</sup> August 1872  
sanctioning demarcation and Survey of the Bellary District.

I have the honour to report that I have just returned from a visit to the Adoni Talug.

2. This being the first Talug in the District taken up there was at first the usual opposition on the part of the ryots but thanks to the Tahsildar V. Doraswami Iyar this has been quite overcome and the people are now not only quite willing to supply the field stones but I have made arrangements with some of the wealthier Head men of villages to supply station stones on payment. So that no contractor will be required. No advances will be necessary.

3. The stone is of excellent quality very hard granitic quartz, and is quarried in very neat blocks of the size required so that the only chiseling necessary is for cutting the broad arrow and distinguishing marks. About 10000 stones of all kinds are now ready, all but the distinguishing marks.
