ON seeing Government Order, No. 2,023, of the 14th August last, which by an oversight was not originally communicated to this office, the District Engineer, Cuddapah, was informed that the disbursement of the amount therein sanctioned for land compensation for an Irrigation channel should be supported by a statement or register in the form given in Proceedings, Madras Government, No. 1,617, of the 20th June last. The statement, as at first prepared, gave no definite information, and it was returned for revision; as now submitted it shows that the land was taken up for the Madras Irrigation and Canal Company's works, and it will be necessary therefore to cancel the sanction given in August, and to instruct the Collector of Cuddapah to submit a land register and bill in the forms laid down for the acquisition of land required by the Irrigation Company.

2. Any payment made by the District Engineer, Cuddapah, on this account should be at once refunded.

Chief Engineer for Irrigation.

No. 90. ORDER THEREON, 5th December 1873, No. 2,933.

IRRIGATION, No. 6.

THE sanction for land compensation accorded in Government Order, No. 2,023, of the 14th August 1873, on account of an Irrigation channel in the Cuddapah District is cancelled, as it appears that the

channel is connected with the Madras Irrigation and Canal Company's works. The Collector should transmit to the Chief Engineer for Irrigation the usual land register and bill when, if found in order, sanction against the Budget provision for compensation for land made over to the Company will be given.

2. Any payment made by the District Engineer under the order referred to should be at once refunded.
