Secretary to the Board of Revenue
Madras.

Sir,

Since writing my letter No 136
dated 13th August 1873, I am glad to say
that there has been some improvement in
the season. Rain has fallen pretty generally
throughout the District. Inches 2.5 fell
in Cuddapah on the night of the 23rd, and
here in the Sub-Division rain has also
fallen to an extent sufficient to improve
the agricultural prospects of the District.
Half of a full flood has been received in the
Chitravati, Pennar and Cheyair rivers thus
showing

*Proceedings of the Madras Government, Revenue Department,
12th September 1873.*

Read the following Proceedings of the Board of Revenue, dated 6th September 1873, Miscellaneous No. 5,712:—

Read the following letter from W. D. HORSLEY, Esq., Collector of Cuddapah, to J. GROSE, Esq., Secretary to the Board of Revenue, dated 1st September 1873, No. 10.

SINCE writing my letter, No. 136, dated 13th August 1873, I am glad to say that there has been some improvement in the season. Rain has fallen pretty generally throughout the district. Inches 2.5 fell in Cuddapah on the night of the 23rd, and here in the sub-division rain has also fallen to an extent sufficient to improve the agricultural prospects of the district. Half of a full flood has been received in the Chitravate, Pennaur, and Cheyair rivers; thus showing that the rain has been pretty general throughout the country, and there is every indication that this district will be further favoured. There is still an insufficient supply of tank-water to enable the ryots to commence the cultivation of wet crops; but I have every hope that the tanks will eventually receive a full supply. I hear that there has been little or no rain in Pulivendla Taluq. But later reports will, I think, from the appearance of the matter, show that rain has likewise fallen there. The rain has as yet not been plentiful, but sufficient to further the cultivation of dry lands.

SUBMITTED for the information of Government.

ORDER THEREON, 12th September 1873, No. 68.

ORDERED to be recorded.
