

Proceedings of the Madras Government, Revenue Department,

22nd July 1873.

No. 190. Read the following Proceedings of the Board of Revenue, dated 7th July 1873, No. 1,216 :—

Read again Board's Proceedings, dated 22nd April 1873, Miscellaneous No. 2,425.

Read also the following letter from E. S. PEARSE, Esq., Acting Head-Assistant Collector in charge, to W. S. FOSTER, Esq., Acting Collector of the Godavery District, dated Rajahmundry, 31st May 1873, No. 197 :—

In reply to your docket No. 136, dated 30th April last, and the Proceedings of the Board, therewith received, I have the honour to state that it is reported by the Tahsildar that there is no probability of water being discovered if wells are sunk in the Village of Kalavacherla, therein referred to, and that if discovered, it will be saltish, as the water in the only well which the village already has is saltish; it is therefore in vain to dig wells in the village for drinking water.

No. 180.

FORWARDED to the Board of Revenue with reference to their Proceedings of the 22nd April last, No. 2,425.

2. Under the circumstances stated, the Acting Collector begs to recommend that the tanks referred to may be given up for drinking purposes.

COCANADA,
4th June 1873.

(Signed) W. S. FOSTER,
Acting Collector.

THE Board resolve to submit the Collector's application to Government with their support.

2. He proposes that two small irrigation tanks in Kalavacherla should be given to the villagers as tanks of drinking water, the irrigated lands being rated as unirrigated. The owners of the irrigated lands consent. The difference in rates is Rupees 38. The circumstances of the village justify the application.

No. 191. ORDER THEREON, 22nd July 1873, No. 764.

Miscellaneous.

UNDER the circumstances stated, the Collector's proposals, which are approved by the Board of Revenue, are sanctioned.

The owners of the "wet" lands, it is observed, seek no compensation.

(True Extract.)

(Signed) R. A. DALYELL,
Acting Secretary to Government.

To the Board of Revenue.

From,

W. L. Foster Esqre.
Acting Collector

To,

J. G. G. Esquire
Secretary to the Board of Revenue
Madras

Sir,

In forwarding herewith copy
of the Acting Sub Collector's letter of the
26th ultimo No. 56, I have the honor to
request sanction for the classification
of the tanks referred to as drinking
water tanks, and the transfer of the
lands forming the Ayacut thereunder
from wet to dry.

Godavery District Collector's Office
Camp Narsapur, Narsapur
Taluk 10th March 1873

Asst. Sub Collector

To,

W. L. Foster Esq
Acting Collector

Sir,

I have the honor to state that there are two tanks called Sundara Cheruvu, and Ura Cheruvu in the village of Kalawacherla in the Rajahmundry Taluk. The Settlement Department have entered ^{A. C.} 13-35 as a private under the first tank and ^{A. C.} 15-52 under the second. The former tank is situated close to the Village and the latter to its hamlet called Litarampuram. The villagers requested during the Jamabundy that the tanks might be converted into drinking water tanks as they suffer much from want of drinking water.

2a

water during the hot weather and as they have no sweet water wells. The holders of the lands in question have consented to their being classed dry and charged with dry assessment. The difference of wet and dry assessment will be 38 Rupees on both tanks together.

2. It is true that this village is very badly off for drinking water, and I request that you will be good enough to obtain sanction of the Board of Revenue for the change proposed.

I have the honor to be,
(Signed) A. J. Stuart
Asst. Sub Collector

(True copy)
(Signed) W. L. Foster
Asst. Collector

The Collector requests sanction for making over to the Villagers of Kalawacherla in the Rajahmundry Taluk two tanks

tanks for the purpose of drinking water,
the wet lands under them being transferred
to the head of "Dry". The difference between
the wet and dry rates is Rupees 38.

2. The collector's proposal involves
an abatement of Rs. 38 a year from Imperial
Funds towards a local object.

3. The Board moreover think that pro-
-vision for the good water supply of the Village
may be made at a much less cost by
digging wells.

4. The collector is accordingly requested
to state if it will not be cheaper and better
to dig wells and if so whether the villagers
will pay half the expenses and the Circle
Board the other half.
