No. 54. Read the following Proceedings of the Board of Revenue, dated 20th June 1873, No. 1,065:—

From W. S. FOSTER, Esq., Acting Collector of the Godavery District, to J. GROSE, Esq., Secretary to the Board of Revenue, dated Cocanada, 17th May 1873, No. 146.

In forwarding, herewith, copy of the Acting Sub-Collector's letter of the 10th instant, No. 165, I have the honour to request sanction for supplying to the villages of Kaldhari, Pippara, and Navolipalem, three ferry-boats at a cost of 219 Rupees each.

2. The villagers of Chebrolu have since been supplied with one under Board's Proceedings, dated the 29th October 1872, No. 7,200.

3. As the Irrigation canals run through the villages, separating some of the the lands from the houses of the village, the cost should be met from the Agricultural grant.

4. The boats will be constructed under the supervision of the Revenue Department.

5. The Canal and Ferry Act I. of 1870 is not in force at the places.

Enclosure No. 1.

From A. J. STUART, Esq., Acting Sub-Collector, to W. S. FOSTER, Esq., Acting Collector of the Godavery District, dated Linganparru, 10th May 1873, No. 165.

I have the honour to state that in the last summabundy, the villagers of Kaldhari, Pippara, Chebrolu, and Navolipalem, asked for ferry-boats for use across the canals noted in the margin.

The Attilly Canal near Kaldhari.
The Undi high level channel near Pippara.
The Ellore Canal near Chebrolu and Navolipalem.

2. The villages are situated on one side of the canal, and some of the lands belonging to them on the other. Statements showing the particulars of lands so situated are sent herewith.

3. The Ellore Canal is not usually fordable in any season, and so also the other canals in the rainy season.

4. Under the above circumstances, I beg to recommend that each of the above four villages be supplied with a ferry-boat.

2. The Board consider that villages, situated as these are described to be, should in all cases be supplied with boats.

3. The Collector will see that proper arrangements are made for the custody of the boats.
