Proceedings of the Madras Government, Revenue Department,
18*th September* 1873.

No. 134. Read the following Proceedings of the Board of Revenue, dated 18th August 1873, No. 1,597:—

Read the following letter from W. S. FOSTER, Esq., Acting Collector of the Godavery District, to J. GROSE, Esq., Secretary to the Board of Revenue, dated Cocanada, 1st July 1873, No. 213:—

I HAVE the honour to forward, herewith, 2 plans* of latrines proposed to be built at the Taluq Offices of Rajahmundry and Prattipadu, sent to me by the Officer in charge of No. V. Range, for countersignature.

* To be returned.

2. I do not see the use of these latrines, without a sweeper to clean them.

3. It may be said that the prisoners in the Subsidiary Jails may be employed in cleaning these latrines, but I should think nothing worse would degrade the prisoners, bearing† in mind that it was with the view of avoiding degradation of these men that their admission into the Zillah Jail was refused.

† G. O., Judicial Department, 26th March 1862, No 503.

4. The Range Officer has also forwarded the accompanying plan‡ for the construction of a hospital shed at Rajahmundry. I think that this is also not necessary. There is the District Jail; any sick prisoner may be removed to the Hospital attached to that jail.

‡ To be returned.

5. Under these circumstances, I request that the Board will see fit to do with the construction of the latrines and the hospital shed in question.

ENCLOSURES Nos. 1 to 3.—Plans.

THE plans will be submitted for the orders of Government.

2. The Board think latrines should be provided though the larger building proposed seems to them to be too large. Charges for cleaning them may be included in Contingent bills.

3. The Board agree with the Collector that the proposed hospital shed is not wanted.

No. 135. ORDER THEREON, 18th September 1873, No. 999.

Miscellaneous.

THE hospital-shed is unnecessary, but latrines must be provided.

2. The Government are, however, disposed to give a general preference to the plan of latrine recently designed by Colonel Roberts, R.E., and circulated with G. O. (Public Works), dated 10th May 1873, No. 1,306. They would, therefore, suggest the substitution of plans after his design for those now submitted; but in the larger building they would place an earth-bin in the centre, and have an urinal at either end.

(True Extract.)

(Signed) R. A. DALYELL,
Acting Secretary to Government.

To the Board of Revenue.
,, the Public Works Department.

Exd. F. R. Bantleman.

Latrines for Taluk Offices of Rajamundry & Pattiseeme, & a hospital about at Rajahmundry, Godavery Dt.

No 2574

18th August 1873, No. 1594

Lr to E

I like cl Rbts best - it would place the Earth work in the centre with a canal at each end, the large structure -

I & W

* D.P.W. GO. 1306 & dt 16th Aug 73.

The proposed latrines seem very similar to those in use at Coimbatore and apparently formerly adopted as standard. Please see plan but.

2. It is however submitted that the Board are right in considering that proposed for Rajahmundry larger than necessary.

3. A plan & estimate by Col Roberts R.E. was recently circulated to all ds/Executive & a copy is also put up.

The iron pans could easily be supplied in this case owing to the proximity of Rowlaish = waram Lee

REVENUE DEPARTMENT.

No. 2579.

From Sec. Bd of Revenue Dated 18th August 1873 No. 1592 ~~187~~ .

FOR ORDERS.

I concur with the Hon. Mr. Hoole
a Hospital Shed is quite un-
necessary. A Latrine with
Sweeper is certainly wanted.
But I might we look a Plan.
Why not adopt the Cuddalore
Kind
