GOVERNMENT OF MADRAS

Rev DEPARTMENT

G.O. No.	9	Press
B.P. No.		Mis.
Dated	2-7-1873	196 .

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Works Department,
18th June 1873.*

Read the following papers:—

No. 244. Proceedings of the Board of Revenue, dated 17th March 1873,
Miscellaneous No. 1,582.

THE Canal Register (to be returned) for Fasli 1281, received from the Godavery District in the form prescribed in the Board's Proceedings, dated 24th June 1872, No. 1,082, is herewith forwarded (in original) to the Chief Engineer for Irrigation, with reference to paragraph 3 of his letter, dated 5th June 1872, No. 91. The Statement for Fasli 1282 will be forwarded in the new form prescribed in the Board's Proceedings, dated 11th December 1872, No. 2,365.

(True Extract.)

(Signed) J. GROSE,
Secretary.

Register showing the total Area irrigated by the several Ancient Canals in the Godavery District, Fasli 1281 (A. D. 1871-72.)

Proceedings of the Madras Government, Public Works Department,
18th June 1873.

Amount of water-cess contracted by the Zemindars of Nidadavole and Bahurhalli Estates...

Cocanada,
September 1872.

(Signed) W. S. FOSTER,
Acting Collector.

*Proceedings of the Madras Government, Public Works Department,
18th June 1873.*

No. 244A.

No. 196.

MEMORANDUM.

With their Proceedings No. 1,582 of the 17th March 1873, the Board of Revenue have transmitted a Register showing the total area irrigated by the several Ancient Canals in the District for Fasli 1281 (1871-72). This Register shows the following:

	Extent.	Net amount of Water-tax.
	ACRES.	RS.
Government lands, 1st crop	216,052	8,67,615
Do. Dalwa and 2nd crop	4,472	17,416
Do. Dry crops irrigated	5,110	13,316
Total	225,634	8,98,422
Inam and Zemindary lands, 1st crop	149,958	5,03,617
Dalwa and 2nd crop	3,609	14,204
Dry crops irrigated	7,174	18,758
Total	160,741	5,36,579
Amount of water-cess contracted for by the Zemindaries of Nidadavole and Baharzhalli		28,488
Total	160,741	5,65,067
Inam and Zemindary lands irrigated free of water-tax—		
1st crop	81,771	
Dalwa and 2nd crop	43	
Dry crops irrigated	22	
	81,836	
Grand Total	468,211	14,63,489

The total area here shown agrees with that of the Register received from the Board; but the net amount of water-tax in Column 34 of the Register includes 3,26,363 Rupees, which has been entered against lands irrigated free of water-tax, and this has consequently been omitted from the above abstract.

Taking the sum paid by the Nidadavole and Baharzhalli Zemindaries to represent, at 4 Rupees an acre, an area of acres 7,122, the total area irrigated in 1871-72 becomes 475,333 acres.

2. The Board have intimated that the Register of Fasli 1282 (1872-73) will be prepared in the form enclosed with their Proceedings No. 1,582. This form is in many respects an improvement on that used for Fasli 1281, but the Chief Engineer for Irrigation thinks that for the purposes of the Irrigation Accounts, it will be necessary to keep distinct the land assessment and the water-tax, where the latter forms a separate charge, and that either, so far as this point is concerned, the Register should be prepared from Columns 1 to 18 as for Fasli 1281, or, if the Board prefer it, that land assessment should be shown separately in additional columns where there is a water-rate.

*Proceedings of the Madras Government, Public Works Department,
18th June 1873.*

3. Whatever form may be finally adopted, the Returns for as many years as possible prior to Fasli 1281 should be prepared according thereto, otherwise comparisons between the several years cannot be made.

FORT ST. GEORGE,
29th March 1873.

(Signed)

J. MULLINS, Lieut.-Colonel, R.E.,
Chief Engineer for Irrigation.

No. 245.

ORDER THEREON, 18th June 1873, No. 1,592.

IRRIGATION, No. 22.

THE Government consider that it will be useful to have the amount of water-tax, where a separate water-rate is charged on irrigated lands, shown distinctly in the Registers. This can be done by the addition of three columns to the part of the Register referring to Government lands, and one column to the "total." The land assessment will then be entered in a column by itself. Where a consolidated assessment is still in force, the land assessment and water-tax columns can be bracketed.

2. It is desirable and necessary that the Registers should be prepared from their commencement in one and the same form, in order that the results exhibited in them in successive years may be compared.

(True Extract.)

W. H. Mullins Colonel, R.E.,
Secretary to Government.
