*Proceedings of the Madras Government, Revenue Department,
25th August 1874.*

No. 218. Read the following Proceedings of the Board of Revenue, dated 4th August 1874, No. 2,076 :—

Read the following letter from R. K. PUCKLE, Esq., Collector of Tinnevelly, to J. GROSE, Esq., Secretary to the Board of Revenue, dated Papanasam, 11th July 1874, No. 343.

WITH reference to Board's Proceedings, Miscellaneous No. 4,424, dated 2nd instant, I have the honor to inform you that I have but little to add to the general outline of the plan of operations for tracing the hill boundary between Tinnevelly and Travancore set forth in my Memorandum enclosed in the above-mentioned Proceedings.

2. It is only possible to give detailed information, or to prepare a reliable estimate on the spot after a trial line has been commenced ; and I can only roughly state that an establishment costing, say, Rupees 1,000 a-month, including a liberal allowance for batta and contingencies, such as hutting the officers and coolies, conveying provisions, the purchase of tools, cloth for flags, etc., etc., would be sufficient to start with—

	RS.
2 Maistries on 30 Rupees each ...	60
2 Head Coolies on 15 „ „ ...	30
4 Lascars on 15 „ „ ...	60
50 Coolies on 10 „ „ ...	500
Batta and Contingencies ...	350
Total ...	1,000

3. The officers would require no additional pay, as tracing such a boundary would form part of the duty either of the Collector or the Additional Sub-Collector as Settlement Officers, or of the Deputy-Conservator of Forests, and between them they could manage the supervision of the Tinnevelly party. The Travancore Government would no doubt provide a similar party, preliminaries might be shortly arranged, and, if early orders are issued, there is no reason why work should not commence even as soon as September next when the violence of the southwest monsoon has abated.

SUBMITTED to Government with reference to G. O., dated 10th June 1874, No. 712.

2. The desiderata with regard to tracing the boundary between Tinnevelly and Travancore where it is indistinct seem to be rightly stated by the Collector of Tinnevelly and the Resident of Travancore.

3. The Collector estimates roughly that each Government must entertain an establishment costing, inclusive of batta and contingencies, about Rupees 1,000 a-month.

4. In the Memorandum enclosed in the Resident's letter Mr. Puckle states an opinion that the line may be cleared and marked out at the rate of a mile a-day, and a permanent path made at a cost of Rupees 100 a-mile. The distance to be marked out is about 120 miles, so that the time occupied in settling it will be about four months.

*Proceedings of the Madras Government, Revenue Department,
25th August 1874.*

5. The Resident recommends the commencement of operations in December, but Mr. Puckle now says there is no reason why the work should not commence "even as soon as September next when the violence of the southwest monsoon has abated."

6. The Board think that the establishment proposed by Mr. Puckle should be sanctioned, and that the Government of Travancore should be requested to have a similar establishment at Mahendragiri ready to commence work as soon as after the middle of September.

7. The reports from Madura and Coimbatore have not been received yet.

No. 219.

ORDER THEREON, 25th August 1874, No. 1,068.

Miscellaneous.

THESE Proceedings will be communicated to the Resident of Travancore, in order that the arrangement suggested by the Board in paragraph 6 may be carried out as soon as possible. He will report at an early date what action has been taken by the Travancore and Cochin Sirkars with reference to the Government Proceedings of the 10th June last.

2. It is essential that properly qualified officers should attend on behalf of both Native States, but at present Travancore only requires to be represented.

3. His Excellency the Governor in Council resolves to sanction the entertainment of an establishment on the footing recommended by Mr. Puckle, to be expended as income until it is certain when the Travancore officer will be

4. The Superintendent, Revenue Survey, will provide the necessary survey aid.
