DEPARTMENT

G.O. No. 108 ~~Press~~
~~B.P. No.~~ Mis.

Dated 20-2-1874. ~~1896~~

Not to be folded or roughly handled

Proceedings of the Madras Government, Revenue Department,

24th February 1874.

Read the following telegrams :—

From Collector of the Kistna District, Masulipatam, to Secretary to Government, Revenue Department, Madras, dated 18th February 1874.

No rain at Masulipatam or elsewhere ; 2 inches over anicut. Canal-supply moderate. Castor, maize, ulundu, sown in a few taluqs. Standing crops good, but suffer from drought in parts. Ulundu, gram, tobacco, chillies, reaped in Palnad. Paddy in Bunder. Prices on the whole stationary. Fever and small-pox general, but abating. Guinea-worm in Palnad. Cattle healthy in three taluqs pasture scarce. Markets well supplied locally.

From Collector of Kurnool, to Secretary to Government, Revenue Department, Madras, dated 18th February 1874.

Season tolerable. Outturn of dry crops fair. Markets well supplied. Prices stationary, but dear in Cumbum and Markapur. Men and cattle generally unhealthy, except in Koilakuntla. Water and dry fodder plentiful. Second-crop paddy under the canal thriving. No water over Sunkesala Anicut.

From Treasury Deputy-Collector, Tanjore, to Secretary to Government, Revenue Department, Madras, dated 18th February 1874.

Rain at Negapatam decimal 15 inches, elsewhere none. Rivers dry. Water in tank scarce Water over anicuts none. Cultivation very little. Standing crops, some not thriving, other withering for want of rain. Sambápishanám harvest continues. Yield below average. Pasture moderate. Markets sufficiently supplied. Prices rising. Public health good ; but for small-pox more or less severe. Cattle generally healthy.

From Collector of Trichinopoly, to Secretary to Government, Revenue Department, Madras, dated 18th February 1874.

Steady light rain to-day from 8 A.M. which seems general, and slight showers yesterday only beneficial to pasture lands. Water-supply beginning to fail, even for drinking purposes, in dry villages. Wet crops, under good irrigation, moderate. In other localities they have failed to a considerable extent ; and dry crops are universally bad. Out-turn in most cases far below the average. Markets sufficiently supplied in most places, some slight difficulty in parts of Perambalur and Udayarpolliem. Prices much higher and rising. Public health generally good. Condition of cattle good, and pasture procurable.

From Collector of Malabar, Calicut, to Secretary to Government, Revenue Department, Madras, dated 18th February 1874.

Rain-fall none. Second crop almost harvested, supply of grain sufficient. Small-pox prevalent. Fever slight in hilly parts. Cattle healthy. Pasture withering. Prices increasing.

Order thereon, 20th February 1874, No. 103.

Communicated to the Board of Revenue.

(True Extract.)

(Signed) L. A. CAMPBELL,
Acting Under Secretary to Government.

To the Board of Revenue.
„ the Sanitary Commissioner.
„ the Chief Engineer for Irrigation.
„ the Surgeon-General, Indian Medical Department.

Exd. W. H. French.
