Proceedings of the Madras Government, Revenue Department,
16th September 1874.

Read the following :—

No. 162. Proceedings of the Court of Wards, dated 6th August 1874, No. 2,109.

Read again the following papers :—

G. O., dated 11th October 1873, No. 1,089, recorded in Board's Proceedings, dated 21st October 1873, No. 2,154.

Proceedings of the Court of Wards, dated 11th February 1874, No. 290.

Read the following letter from W. McQUHAE, Esq., Collector of Madura, to J. GROSE, Esq., Secretary to the Court of Wards, dated 28th November [illegible], No. 117.

I HAVE the honor to acknowledge the receipt of the Proceedings of the Court of Wards, No. 2,154, dated 21st October last, and to forward herewith copy of a statement received from Mr. Lee-Warner showing the period likely to be required to free the Ramnad estate from a debt of ten lakhs of Rupees. The figures as to receipts and disbursements have been adopted from those entered in the Budget lately sanctioned by the Court of Wards; but the allowance to the Minor has been calculated at the full 10 per cent. on the peishcush as provided for in the Regulation. According to this estimate the debt can be liquidated in six years, or at the end of fasli 1288.

2. I ought, at the same time, to point out that the question asked by the Government of India cannot be answered in a satisfactory manner till the litigation regarding the portion of the debt classed as not chargeable to the estate is finished. If the Courts compel us to pay away the surplus proceeds of the estate to other creditors, the debt to Government must obviously stand over. The first suits are posted for hearing on the 12th January next.

ENCLOSURE No. 1.—Statement.

ON examining the statement accompanying the foregoing letter, showing the calculations as to the probable period within which the debt of ten lakhs advanced by Government to the Ramnad estate will be cleared, the Court find that the Collector has omitted to take into account the arrears of peishcush due by the estate, which, at the commencement of the current fasli, amounted to Rs. 7,22,106. Provision for the payment of these arrears will considerably diminish the available surplus counted upon by the Collector and prolong the period for the liquidation of the debt. The Collector is, therefore, requested to revise his calculations with reference to the above, and submit a fresh statement.

2. The Court, also, observe that the figures given in the several columns of the statement are not quite correct, as will be seen from the pencil alterations made in this Office. The Collector is requested to see that the figures are correctly posted in the revised statement.

Read also letter from W. McQUHAE, Esq., Collr. of Madura, to J. GROSE, Esq., Secretary to the Court of Wards, dated Periacolam, 25th June 1874, No. 80.

WITH reference to the Proceedings of the Court of Wards, dated 11th February 1874, No. 290, I have the honor to submit herewith a revised statement

(together with an abstract) showing the period likely to be required to free the Ramnad Estate from a debt of seventeen and odd lakhs of Rupees. According to the present estimate the debt can be liquidated in ten years. For the purpose of calculation the whole of the debt is supposed to have been incurred in the beginning of fasli 1283. The figures as to receipts and disbursements have been adopted from those entered in the Budget lately submitted to the Court of Wards for fasli 1284, with the following exceptions:—

(1.) The allowance to the Minor has been calculated at the full 10 per cent. on the peishcush as provided for in the Regulation.

(2.) Increased provision is made under the head of Miscellaneous Charges to meet the extraordinary expenditure.

Enclosures Nos. 1 and 2.—Statements.

With his letter above recorded the Collector of Madura furnishes a statement showing the period likely to be required to free the Ramnad Estate from debt, according to which the liabilities will be liquidated in 10 years.

2. The estimate now submitted has been revised with reference to the Court's remarks in their Proceedings above quoted; but the Court observe that the Collector has calculated the interest on arrears of peishcush as well as on the loan of ten lakhs of Rupees at 5 per cent., whereas, with reference to the provisions of Section 7, Act II. of 1864, interest at 6 per cent. should be allowed in the former case. A revised statement has been prepared in the Board's Office, the interest on arrears of peishcush being reckoned at 6 per cent., and the calculations being based on the supposition that payments on account of peishcush will take precedence of payments on account of the loan. The estimate also presumes that the interest accruing will be paid *annually* as the first charge, and the surplus proceeds of the estate devoted to the reduction of the principal. It must be noted, however, that the draft deed of mortgage of the Ramnad Zemindari furnished by the law-officers provides for payment of interest "*monthly on the first day of each month.*" As this provision would entail inconvenience, the collection of the revenue of the estate not being spread equally over the whole year, the Court would suggest that before the deed is executed it should be modified, so as to make the interest payable annually.

3. The Court further remark that the sale-proceeds of the whole of the late Zemindar's private property have not been brought to account in the statement now submitted, as directed in paragraph 2, G. O., dated 14th August 1873, No. 850, owing to the sales not having been as yet completed; but, as the estimate is not materially affected by the omission, the Court will not delay the submission of the statement called for on this account. It will now be submitted to Government, with reference to their order of the 11th October 1873, No. 1,089.

4. It must be borne in mind that the estimate is merely in the nature of a rough calculation, and is liable to be disturbed by various contingencies which cannot be foreseen, such as the state of the season, the results of suits now pending or to be brought hereafter by creditors of the estate, *etc.* The amount of the loan will cover the debts declared by the law-officers to be chargeable on the estate; but until all litigation regarding claims which have been rejected is concluded, the *exact* amount of the liabilities cannot be ascertained.

Read also letter from W. McQUHAE, Esq., Collector of Madura, to J. GROSE, Esq., Secretary to the Court of Wards, dated Periacolum, 25th June 1874, No. 80.

WITH reference to the Proceedings of the Court of Wards, dated 11th February 1874, No. 290, I have the honor to submit, herewith, a revised statement (together with an abstract) showing the period likely to be required to free the Ramnad Estate from a debt of 17 and odd lakhs of rupees. ENCLOSURES Nos. 1 and 2.—Statements.

WITH his letter above recorded, the Collector of Madura furnishes a statement showing the period likely to be required to free the Ramnad Estate from debt, according to which the liabilities will be liquidated in 10 years.

2. The estimate now submitted has been revised with reference to the Court's remarks in their Proceedings above quoted, but the Court observe that the Collector has calculated the interest on arrears of peishcush, as well as on the loan of 10 lakhs of rupees, at 5 per cent., whereas, with reference to the provisions of Section 7, Act II. of 1864, interest at 6 per cent. should be allowed in the former case.
