*Proceedings of the Madras Government, Revenue Department,
27th January 1874.*

Read the following papers:—

No. 235. From C. J. LYALL, Esq., Under-Secretary to the Government of India, Department of Agriculture, Revenue, and Commerce, (Forests,) to D. F. CARMICHAEL, Esq., Secretary to the Government of Madras, Revenue Department, dated Calcutta, 6th January 1874, No. 25.

I HAVE the honour to request that, with the permission of His Excellency the Governor, you will be kind enough to have the accompanying maps filled up to show the distribution of the chief classes of forests and the principal trees, according to the sample sheet of colours which is annexed. The province of Mysore has already been filled up, so that this will be a guide or pattern for the rest. It is not, of course, intended that the areas coloured should be to scale, or to represent the real area of the forest, but only to indicate the general locality of production.

2. The pattern sheet will, it is hoped, explain sufficiently how the various colours are to be used.

3. The sheet does not, you will observe, take any account of whether the forest is private or Government, and, indeed, the colours may be used over foreign States if it is known what forest they contain.

4. The object is to indicate the distribution of ~~it~~ in India, without reference to ownership or class of forest, whether reserved or unreserved, or whether Government has only the right to the trees.

5. I am further to request that the map, when filled in, may be returned as soon as possible; it is urgently required for incorporation in a general review of the forest resources of the Empire.

IN continuation of letter from this department, No. 25, dated the 6th instant, and, as requested in your telegram of the 14th idem, I am directed to advise you of the despatch, by Post, of sheet No. 4 of the sketch map of India, containing the northern coast districts of the Madras Presidency.
