made for only one Inspecting Schoolmaster. In 1873 the Government determined that one would be enough and the Local Fund Board think one will be enough in 1874-75. The Director recommends that provision be made for a second Inspecting School-

th April 1873, No. 504, Government sanctioned the establishment of twenty-two lower-class schools, on the presumption that all the latter would be established there. It is now reported that only seventeen of the schools were thus established. Of these are in places where there are schools already. Omitting the town of Kibungwe, there are thirteen results grants schools, there is not one institution in the whole district which could establish such a school early one-half of the Circle, nor is there any probability that private results grants schools will be established there. It is pointed out that, while the rules still seem to require that established results grants schools should be made Local Fund schools first, the advancement of elementary education really requires that Local Fund schools should be first established where no such schools exist at present. The Revenue Board entirely concur in this view. The house-schools having been abolished, an entirely new policy has been inaugurated with regard to Local Fund schools. It is time that new rules should be laid down. The Local Board accordingly have struck out twelve of the schools named in the current year's budget and establish eleven in the Kimedi estate.

The Provincial grant is a repetition of the grant for the current year and is permitted to stand subject to modification hereafter if necessary. The estimate of receipts from cess on land is explained to be based on the year 1873-74.

To meet the expenditure as shown in the budget it is proposed to transfer Rs. 20,000 from the one-third land cess to the Road Fund. This proposition, but in consideration of the peculiar circumstances under which the Provincial Funds was granted, and the fact that in the matter of roads, the Government are willing to pay Rs. 20,000 still due which will set free a sum of Rs. 20,000 for appropriation to roads in 1874-75 in lieu of the Rupees 4,000 Board's Proceedings, dated 5th January 1874, submitting the establishment of Local Fund Schools are now under the consideration and pending orders thereon the provision made in the budget but the proposal to allow no results grants in places where no school has been established cannot be sanctioned except in the event of a general order being issued throughout the Presidency.

Medical practitioners will not be interfered with, but a second officer, the Government desire to maintain the working of the system, and the manner in which it is to be utilized by the services of two officers. From the salary provided, Rupees 2,000 are provided for the Government presume that it is intended to employ men of a similar class on the medical establishment. Pending orders on the general question of public bungalows, the allotment of Rupees 500 for repairs must be struck off the provision for establishment reduced to Rupees 240, the amount
