*Proceedings of the Madras Government, Revenue Department,
30th January 1874.*

No. 274. Read the following Proceedings of the Board of Revenue, dated 17th January 1874, No. 72:—

Read the following letter from J. HUNTER-BLAIR, Esq., Collector of Madras, to J. GROSE, Esq., Secretary to the Board of Revenue, dated 16th December 1873, No. 270.

REFERRING to the Order of Government, No. 1,767* of 7th ultimo, Judicial Department, authorizing the application of strychnine to the carcasses of animals killed by tigers, I have the honour to bring to the notice of the Board, that it seems to me necessary that the remains of the carcass of the animal killed, as well as of the tiger killed by eating it, should be burnt the next morning, otherwise persons living near might eat the poisoned carcasses, and the dead animals would prove more destructive than the living tiger.

SUBMITTED to Government.

2. The Board consider that the course proposed should be prescribed for adoption in every case.

No. 275. ORDER THEREON, 30th January 1874, No. 141.

Miscellaneous.

THE precaution is approved; but there is perhaps more fear of carrion feeders eating the bait before the tiger is killed by it than afterwards, when its destruction by the poison becomes generally known.

 No. 72.

Destruction of tigers.—Letter from Collector of Madras suggesting, with reference to authorized application of strychnine to carcasses of animals killed by tigers, that both the carcass of the animal killed and of the tiger which subsequently dies by devouring it, should be burnt the next morning, submitted to Government, with recommendation that the course proposed should be prescribed for adoption in every case.

With order

*The presumption is opposed - but there is some fear of a common
 factor eating the bait before the tiger is killed by
 it being afterwards, when its destruction by the
 person becomes generally known -*
