*Proceedings of the Madras Government, Revenue Department,
5th December 1874.*

No. 64. Read the following Proceedings of the Board of Revenue, dated 5th November 1874, No. 3,181:—

Read the following letter from A. McC. WEBSTER, Esq., Acting Collector of South Canara, to J. GROSE, Esq., Secretary to the Board of Revenue, dated Mangalore, 22nd October 1874, No. 2,163:—

I HAVE the honor to forward a plan showing certain additions proposed to be made to my Cutcherry.

2. The ground being contracted, it was considered advisable that the additions should be made by the construction of an upper story to the Treasury and Registrar's room. The walls of the present building, however, are not sufficiently strong to bear the additional weight, and the District Engineer proposes therefore to pull down the existing rooms, and to construct a substantial two-storied and better arranged building on the site.

3. The existing accommodation in the office is most inadequate. To begin with the accommodation for the Collector. He has an office-room sufficiently large, but has no retiring room, a portion of the verandahs being boarded off to serve the purpose.

4. The English Correspondence and Local Fund Clerks, and the almirahs containing the current records, are crowded into a small room 20 x 22 feet. The Revenue and Magisterial Clerks sit on the landing.

5. The Assistant Collector and his office establishment are confined in a low hot room 25 x 16 feet, with a cheerful outlook on the Subsidiary Jail.

6. There is no accommodation for the Deputy-Conservator of Forests and his office. It is, I consider, most advisable that now that the forests are so much under the management of the Collector, the Deputy-Conservator, as his Forest Assistant, should have accommodation in the Huzur Office. This will help, in a great measure, to do away with the mass of correspondence on subjects which, if the offices are under the same roof, could be settled in a few minutes, and it is, I think, also of importance that the people should see that the Deputy-Conservator of Forests is in reality what he is meant to be, an Assistant to the Collector.

7. The proposed alterations and additions will provide good accommodation for the Collector, the English Correspondence Department, the Local Fund and Registration Departments, the Assistant Collector and the Deputy-Conservator of Forests, and a room will be set free for the Head Assistant Collector when that officer is at head-quarters, or if a Junior Assistant is appointed, can be given to him.

8. The immediate arrangement of the rooms on the ground-floor is, I think, open to improvement, but their size will be the same to whatever use they are put, and I will not therefore at this stage suggest any amendments, as that can be done when the preparation of the estimate is sanctioned.

9. I trust the Board will be disposed to submit the proposal for the favorable consideration of Government at an early date, in order that an estimate may be prepared and the work entered in the Budget for 1875-76.

P. S.—The District Engineer roughly estimates that the improvements will not cost more than Rupees 18,000.

*Proceedings of the Madras Government, Revenue Department,
