Dated	8.12.1874	196 .

Not to be folded or roughly handled

No. 92. Read the following Proceedings of the Board of Revenue, dated 16th October 1874, No. 3,005:—

Read the following letter from J. WILKINSON, Esq., Acting Sub-Collector, to C. T. LONGLEY, Esq., Collector of Salem, dated Oossoor, 21st August 1874, No. 562:—

I HAVE the honor to report that the inspection of the boundary between Salem and Mysore has now been completed.

2. I met Mr. Kistnaiengar, the Deputy-Commissioner of Kolar, and went over the boundary with him between the Kolar Division and the Berikin Polliam. There were only four disputes for disposal, and they were settled by us.

3. I have also, in company with Major Clarke, the Deputy-Commissioner of Bangalore, inspected the remainder of the boundary.

4. There was not a single dispute for us to settle; but we inspected the boundary at several points, and particularly went carefully over the decision arrived at by the special officers in the case of a dispute concerning about 100 acres, which the Special Tahsildars had decided by allotting 50 acres to Mysore and 50 to Salem, with which arrangement the villagers were satisfied. We came to the conclusion that the best arrangement had been made.

5. The Surveyor has commenced the survey of the boundary line, from the trijunction station at the foot of the Mallappum Hill in the North Arcot District, and expects to be able to finish the survey in six months. I have directed him to fix the different points (marking them in the survey plan) at which the large demarcation stones should be erected, and after the line now fixed has received the sanction of the two Governments I shall proceed to have them erected.

6. I cannot conclude my report without bringing to notice the great care and diligence shown by Seshagiri Row, the Special Tahsildar on our side. No one who has not gone over the boundary can have any idea of the hardships which Seshagiri Row underwent. At least three parts of the way the boundary line runs through the jungle; now ascending a steep hill, running along its summit for a short way, and then descending the slope and crossing the valley. I am sure both the Mysore Deputy-Commissioners who have seen the line now demarcated will agree with me that the greatest praise is due to Seshagiri Row on whom the full brunt of the work fell.

7. I trust that, in recognition of Seshagiri Row's services on this occasion, the Government will allow the extra pay he drew when so employed to be reckoned in, when calculating his pension for which he is about to apply. If this is done, his pension will be increased by Rupees 5 per mensem, and that he has well earned by the boundary work.

FORWARDED for the information of the Board of Revenue.

2. The Collector trusts that the recommendation made by Mr. Wilkinson of granting an extra pension of Rupees 5 per mensem will be favorably considered by the Board, as Seshagiri Row appears, both from this report and also from a former report of the late Acting Collector, to have performed the work right well.

SALEM, 26th September 1874.

(Signed) C. T. LONGLEY, Collector.

Proceedings of the Madras Government, Revenue Department, 8th December 1874.

SUBMITTED for the information and orders of Government. The Collector should submit the survey and the records in due course for the formal ratification of the two Governments.

2. The Sub-Collector does not say whether the rough marks have been put up in the presence of the European officers as the Board ordered; but they should be placed in position at once, or the disputes may again arise.

3. The Board resolve to support the Collector's proposal as to Seshagiri Row's pension; he is one of the hard-working, useful men of the old school, and has been always ready when hard out-door work has had to be done.

(A true Copy and Extract.)

(Signed) J. GROSE,
Secretary.

No. 93. ORDER THEREON, 8th December 1874, No. 1,518.

Miscellaneous.

THE proposal in paragraph 3 of these Proceedings is opposed to the provisions of the Pension Code. The Governor in Council thinks it will be more convenient to recognize the extra work performed so well, by granting Sheshagiri Row an honorarium of three months pay, and for this sanction is accorded.

Proceedings of the Board of Revenue, dated 3rd December 1874.

Read the following letter from F. H. WILKINSON, Esq., Acting Sub-Collector, to C. T. LONGLEY, Esq., Collector, Salem, dated Chudapatti, 31st October 1874, No. 725:—

In reply to your foot-note of the 28th instant on the Proceedings of the Board of Revenue, dated 16th October, No. 3,005, I have the honor to report that the rough marks were put up by the Special Officers and inspected by us, it having always been understood that the Board's Orders referred to the large and permanent demarcation stones which are to be put up after the line has been ratified by the two Governments.

Submitted to the Board of Revenue with reference to paragraph 2 of their Proceedings quoted above.

Salem,
10th November 1874.

(Signed) J. W. JOHNSTON,
Dep. Collector, for Collector.

The rough marks appear to have been put up in the presence of the Special Officers and inspected by the European officials and this may be enough. But paragraph 17 of Board's Proceedings, dated 11th September 1872, No. 1,804, disposed of in G. O., No. 1,373, of 3rd October 1872, clearly refers to the rough stones, and not to the permanent marks as presumed by Mr. Wilkinson.

PROCEEDINGS of the MADRAS GOVERNMENT.

Under date the 8th December 1874.

Read the following Despatch from the Government of Bombay.

Submitting for information and orders Act I of 1874 of the Council of the Governor of Bombay assenting to the Cigarette Collection Restricting Act for the Inspection of Boundary Stations in Sind and Mysore has been communicated.

H. E. 16 October 1874 No 3 and 5

The proposal in para 3 of these Proceedings is opposed to the provisions of the Excise Code. The Government in Council therefore should be moved to recognize the extent to which persons should be granted Exemption Licenses for the importation of three months supply for their own consumption.
