*Proceedings of the Madras Government, Revenue Department,
16th December 1874.*

No. 203. Read the following Proceedings of the Board of Revenue, dated 3rd December 1874, No. 3,497 :—

Read the following letter from H. E. STOKES, Esq., Acting Collector of the Chingleput District, to J. GROSE, Esq., Secretary to the Board of Revenue, dated Sydapet, 30th October 1874, No. 609 :—

REFERRING to paragraph 3 of Board's Proceedings, dated 10th July last, No. 1,759, I have the honor to state that the Public Works Department in this district have never had anything to do with the management of village or field channels. Their control has always been restricted to channels and anicuts, for

Casavaram anicut and old Bungaroo channel.
Corattoor anicut, new Bungaroo and Chembram-
baram.
Madras Water Works anicut.
Sholavaram and Red Hill Tanks.
Vallur anicut.
Kumbakal channel.

which a regular Conservancy establish-
ment is entertained; and these are
named in the margin. Village and field
channels have always been managed by
the ryots themselves, who execute also
ordinary repairs. The distribution of

water in all these cases devolved on the Niryanties where a sufficient staff of
them exist; and on the Votties and Ryots themselves, where there are no
Niryanties at all; or where their number is inadequate. What Mr. Barlow meant
to say was that in order to effect the distribution of water with as little waste as
possible, it would be necessary to sanction the entertainment of the additional
staff of Niryanties proposed for the district in connection with Mr. Pelly's
scheme of revising the village establishment.

Submitted to Government, with reference to G. O., 13th August 1874,
No. 1,916.

2. No change seems to be required with regard to the regulation of water
supply in Chingleput.

3. The need of more Niryantees should be borne in mind when the village
establishments are revised.
