*Proceedings of the Madras Government, Revenue Department,
4th February 1874.*

No. 37. Read the following Proceedings of the Board of Revenue, dated
24th January 1874, No. 120:—

Read the following letter from W. H. GLENNY, Esq., Acting Sub-Collector, to
G. VANSAGNEW, Esq., Collector of Nellore, dated Addanki, 14th January
1874.

LAST night at about ten I heard here a sound (viz., as of distant thunder) like
that which accompanied the earthquake at Ongole last July. The noise seemed to
come from the conical hills, a couple of miles north of this village. It lasted about
ten seconds, with one intermission of two or three seconds. The sky was quite
cloudless at the time; there was no "feel of thunder" in the air. There was no
shock of earthquake; this I am quite sure of, for the instant I heard the sound
I watched for a shock.

2. I remember hearing from Mr. Thornhill that in the neighbouring taluq of
Vinukonda such sounds had been heard to proceed from certain hills that resemble
these in shape and structure.

3. It would thus appear that mild volcanic action goes on at present in the
system of small hills that run north and south between the neighbourhood of
Vinukonda and that of Ongole.
