No. 361. Read the following Pro of the Board of Revenue, dated 30th October 187 , . 3,132 :—

ABSTRACT.—*Public Works*—in Chingleput District.—Collector's report on — for 1873-74, submitted to Government with remarks.

No. 362. ORDER THEREON, 17 December 1874, No. 3,552.

IRRIGATION, No. 20.

COMMUNICATED to the Superintending Engineer, Chingleput, who will report, with reference to paragraph 2 of the Board's Proceedings, what has been done towards extending irrigation channels, from the Chembrumbaukum and Red Hills, with Cholaveram, tanks to villages to be, but not formerly irrigated. New irrigation channels may be required in the villages heretofore under the tanks, but in these it would seem that at any rate the greatest area watered in former years can be supplied without any addition to the means of distribution, and the revenue information already called for will show whether this area has been irrigated since a so much larger supply has been made available.

Proceedings, Madras Government, No. 1,502, dated 8th June 1874.

2. The Government are glad to find that the more efficient state of the East Coast Canal in 1873-74 resulted in uninterrupted navigation and a larger revenue.

(True Extract.)

C. Walker Colonel, R.E.,
Secretary to Government.

To the Superintending Engineer, Chingleput.
„ Chief Engineer for Irrigation.
„ Revenue Department.
