MISCELLANEOUS No. 2067

REVENUE BOARD OFFICE,
Madras, 28 March 1874.

From

To

SIR,

The Secretary to the
Board of Revenue,
Madras.

The Secretary to Government,
Revenue Dept.

It is pointed out in the
Bulletin, partly occupied by the
offices of the Board of Revenue
and the Superintendent of Revenue
Survey, where the Superintendent's
Lithographic Presses are situated
adjacent to that occupied by the
Board's Current Record and
Petition Department. The noise
and smoke which accompany the
working of the Presses cause the
greatest inconvenience to the Board's
office and they are sometimes so
bad that they almost put a
stop

stop to business in the above
mentioned departments.

The Superintendent of Revenue
Survey has informed the Board
that if the space in the Western
part of the building now occu-
pied partly by his instruments
and records and partly by records
of the Indian Department is spared
the Bureau can be removed to that
space and the Survey instruments
and records under the Bureau will
interfere between them and
the Board's clerks.

This will give immense relief
to the Board's clerks and will
facilitate public business to an
extent which can only be appre-
ciated if the rooms occupied by
the Board's Current Record
and Relation Departments are
visited at a time when the
Bureau are in full work.

The

21/2
The granite paving stones
cost originally \$1000. They can be
removed and laid down again,
and replaced with a chicanery
and all the necessary arrangements
made for about \$1021.

I am directed to request
that Government will sanction
the requisite expenditure and
send you a regular estimate.

I have the honor to be,
Sir,

Your most obedient servant.

J. G. Rose
Secretary.
