GOVERNMENT OF MADRAS

Revenue DEPARTMENT

G.O. No. 35 ~~Press.~~
~~B.P. No.~~ Mis.

Dated 5.3.1874 196 .

Not to be folded or roughly handled

Proceedings of the Madras Government, Revenue Department, 5th March 1874.

Read the following telegrams —

From Assistant Collector of the Kistna District, Masulipatam, to Acting Secretary to Government, Revenue Department, Madras, dated 4th March 1874.

No rain at Masulipatam or elsewhere; 1 inch below anicut. Canal-supply scanty. Jonna, tamida, onions, sown in Palnad. Cotton, paddy, chillies, suffer from drought and grub in two taluqs; the rest fair on the whole. Gram, ulundu, chillies, tobacco, castor, being reaped in places. Prices stationary. Small-pox and fever general, except in Sattanapalli; also guinea-worm in Palnad. Cattle healthy in two taluqs. Pasture scarce. Markets well supplied locally.

From Acting Collector of Kurnool, to Acting Secretary to Government, Revenue Department, Madras, dated 4th March 1874.

Season favourable throughout. Outturn of later crops fair. Markets well supplied. Prices rising in Koilakuntla, Markapur, and Ramalkotta, but stationary elsewhere. Grain is being largely exported into Nellore from Markapur Taluq. Fever in Cumbum and Ramalkotta. Cattle-disease in Ramalkotta, Pattikonda, Sirwell, and Cumbum. Water and dry fodder plentiful.

From Treasury Deputy-Collector, Tanjore, to Acting Secretary to Government, Revenue Department, Madras, dated 4th March 1874.

Rain at Negapatam 5 decimal 65 inches; elsewhere tolerably good. Rivers dry. Water in tank scanty. Cultivation some dry grains. Standing crops somewhat benefited by the late rain. Sambápishanám harvest continues. Yield below average. Pasture moderate. Markets sufficiently supplied. Prices slightly declining. Public health generally good. Small-pox in some places. Cattle healthy.

From Collector of Trichinopoly, to Acting Secretary to Government, Revenue Department, Madras, dated 4th March 1874.

About an inch of rain in the Cauvery valley on the 18th. Slight showers elsewhere; nowhere of material advantage to the crops. Water even for drinking is failing in some villages. Wet crops have entirely failed in the badly irrigated parts of the district, but have been tolerably good under channel-irregation; dry crops generally bad, and outturn of rice below the average. Markets generally sufficiently supplied. Prices slightly lower than last fortnight. Public health good. Condition of cattle good. Pasture beginning to fail.

From Collector of Malabar, Calicut, to Acting Secretary to Government, Revenue Department, Madras, dated 4th March 1874.

Rain-fall 0·15 inch. Second crop harvested; yield low; supply of grain from local sources not ample. Small-pox prevalent. Fever slight in hilly parts. Cattle healthy. Pasture scanty. Price increasing.

Order thereon, 5th March 1874, No. 35.

Communicated to the Board of Revenue.

(True Extract.)

(Signed) C. G. MASTER,
Acting Secretary to Government.

To the Board of Revenue.
„ the Sanitary Commissioner.
„ the Chief Engineer for Irrigation.
„ the Surgeon-General, Indian Medical Department.
