Proceedings of the Madras Government, Revenue Department,
23rd March 1874.

No. 207. Read the following Proceedings of the Board of Revenue, dated 11th March 1874, No. 544:—

Read the following letter from KOTI SUBBA RAO, Deputy-Collector, to G. D LEMAN, Esq., Collector of the Kistna District, dated Vinukonda, 24th January 1874, No. 11:—

I HAVE the honour to state that the Tahsildar of Narasaraopett reports to me, in his No. 2,863 of 25th November, 1873, that Jugula Ve[illegible] and two others, shepherds of Karuchola, in his taluq excavated, without permission, a small tank in 200 square yards of unassessed land of D. No. 482-2 B. of A. 261-50 of Vankayalapad of the same taluq, which is Government waste. The whole of the said D. etc., constitutes the grazing farm of the village sold this year for 62 Rupees. The shepherds, who dug the tank, stated before the Tahsildar that their children having in last year formed a small pond at the place, they have this year improved it to its present size at an expense of 50 Rupees, and that they, being still desirous of converting the tank into one of greater stability and capacity by executing thereto an additional earthwork of 300 Rupees, and stone work of 200 Rupees, apply for 3 acres* of land inclusive of the 200 square yards already occupied for the work in question. There are already two irrigation tanks, one near the village, and the other at about a mile's distance from it. The latter is absorbant and is not therefore of much use. The one now proposed, being now in the grazing farm will be useful for cattle and also for men passing by it. The bund will be about 100 yards in length, 4 yards in height, and as much in breadth. The depth of water will be about a man's height. The tank will be [illegible] neighbouring hills of Kondavid and be protected by an escape channel at one of its ends. It will not interfere with any of the already existing works of irrigation. The applicants are further able to carry out the work successfully, and express their intention of planting hereafter, with permission, a tope in 4 acres of land by the side of the tank.

* Chargeable at 3 Rs., as stated in Tahsildar's report, No. 4,105, dated 30th December 1873.

2. Under these circumstances, I beg you will be good enough to obtain sanction to sub-divide and make over to applicants 3 acres of land as applied for.

No. 201.

SUBMITTED to the Board of Revenue, with recommendation that the Sub-division applied for be permitted.

MASULIPATAM,
11th February 1874.

(Signed) G. D. LEMAN,
Collector.

SUBMITTED for the favourable consideration of Government.

No. 208. ORDER THEREON, 23rd March 1874, No. 376.

Miscellaneous.

SANCTIONED.

(True Extract.)

(Signed) C. G. MASTER,
Acting Secretary to Government.

To the Board of Revenue.

No. 544.

PROCEEDINGS OF THE BOARD OF REVENUE, dated 11th March 1874.

Read the following letter from KOTI SUBBA RAO, Deputy-Collector, to G. D. LEMAN, Esq., Collector of the Kistna District, dated Vinukonda, 24th January 1874, No. 11:—

I HAVE the honour to state that the Tahsildar of Narasaraopett reports to me, in his No. 2,863 of 25th November 1873, that Jugula Veraya and two others, shepherds of Karuchola, in his taluq excavated, without permission, a charitable tank in 200 square yards of unassessed land of D. No. 482-2 B. of A. 261-50 of Vankayalapad of the same taluq, which is Government waste. The whole of the said D. etc., constitutes the grazing farm of the village sold this year for 62 Rupees. The shepherds, who dug the tank, stated before the Tahsildar that their children having in last year formed a small pond at the place, they have this year improved it to its present size at an expense of 50 Rupees, and that they, being still desirous of converting the tank into one of greater stability and capacity by executing thereto an additional earthwork of 300 Rupees, and stone work of 200 Rupees, apply for 3 acres* of land inclusive of the 200 square yards already occupied for the work in question. There are already two irrigation tanks, one near the village, and the other at about a mile's distance from it. The latter is absorbant and is not therefore of much use. The one now proposed, being now in the grazing farm will be useful for cattle and also for men passing by it. The bund will be about 100 yards in length, 4 yards in height, and as much in breadth. The depth of water will be about a man's height. The tank will be supplied with water by the neighbouring hills of Kondavid and be protected by an escape channel at one of its ends. It will not interfere with any of the already existing works of irrigation. The applicants are further able to carry out the work successfully, and express their intention of planting hereafter, with permission, a tope in 4 acres of land by the side of the tank.

* Chargeable at 3 Rs., as stated in Tahsildar's report, No. 4,105, dated 30th December 1873.

2. Under these circumstances, I beg you will be good enough to obtain sanction to sub-divide and make over to applicants 3 acres of land as applied for.
