Proceedings of the Madras Government, Revenue Department,

31st March 1874

No. 251. Read the following Proceedings of the Board of Revenue, dated 19th March 1874, No. 635:—

Read the following letter from R. W. BARLOW, Esq., Collector of Chingleput District, to J. GROSE, Esq., Secretary to the Board of Revenue, Kakalore, 16th March 1874, No. 86:—

In acknowledging, with thanks, Proceedings of the Board, dated 24th ultimo, authorizing the grant of certain special remissions in this district, I have the honour, with reference to paragraph 3, to report that no remission will, I consider, be necessary under the Red Hills, Chembrambakam, or Sholaveram tanks.

2. As regards paragraph 2, I forward a statement showing the tracts in Conjeveram and parts of Madurantakam Taluqs, in which the Sub-Collector proposes to grant percentage remission for punjah cultivated, and the rates for the same. He does not propose to grant such remission in the Chingleput Taluq, nor do I in the principal division, except in special cases of extreme hardship, which I will report on separately when necessary.

3. According to the latest accounts now before the Sub-Collector, it appears that the dry cultivation in the Conjeveram Taluq and in the portions of Madurantakam abutting on North Arcot, where percentage remissions for short crop seem necessary is only about 8 and 10 per cent., respectively, below that of the preceding year, and it is evident, therefore, that the ryots there have suffered more than elsewhere from [illegible]. The same [illegible] as to [illegible] of dry cultivation applies to Ponneri, but there the ratio of punjah to nunjah is smaller, and the circumstances of the taluq are otherwise more favourable.

Enclosure No. 1.

Proceedings of the Board of Revenue

Dated 13th March 1874, No. 635

Read the following:-

No. 86.

From

R. M. Burlow Esquire

Collector of the

Chingleput District.

To

J. Grove Esquire

Secretary to the Board of Revenue

Madras.

Sir,

In reckoning up the Statistics,

Proceedings of the Board, dated 24th

Ultimo, authorizing the grant of certain

Annual remissions in this District, I

have the honor, with reference to para 3,

to report that no remissions will be

Enclosure in Proceedings of the Board of Revenue to the Secretary to Government Revenue Department dated 19th March 1874.

Rev: 939/74

Pkd 31 March/74
In B No. 251.

consider, be necessary under the Red Hills, Chembramlakam or Sholaveram tanks.

2. As regards para 2, I forward a Statement showing the tracts in Conjeeveram and parts of Maduraptakam Taluqs, in which the Sub-Collector proposes to grant percentage remissions for Punjah cultivated, and the patis for the same. He does not propose to grant such permissions in the Chingleput Taluq; nor do I in the Principal Division, except in special cases of extreme hardship; which I will report on separately when necessary.

3. According to the latest accounts now before the Sub-Collector, it appears that the dry cultivation in the Conjeeveram Taluq paid in the portions of Maduraptakam adjoining on North Arcot, where percentage remissions for short crop seem necessary, - is only about 8 and 10 per cent respectively below that of the preceding year, and it is evident therefore that the pyots there have suffered more than elsewhere from the bad season. The same remark as to percentage of dry cultivation applies to Pomeri, but there the patis of Punjah to Nunjah is smaller and the circumstances of the Taluq are otherwise more favourable.
