G.O. No. / B.P. No.	447	Press / Mis.
Dated	16-4-1874 / 196 .	

Not to be folded or roughly handled

No. 89. Read the following Proceedings of the Board of Revenue, dated 24th March 1874, No. 660:—

DURING his recent visit to Nellore, the 1st Member obtained specimens of the salt from different stations in the district which won prizes at the Agricultural Exhibition, held in Nellore, and also from Kistnapatam, which station was inspected in detail.

2. The specimens are of excellent quality. At Kistnapatam the manufacture was already (in February) in full progress, and the salt which was being produced was equal to any which the 1st Member has seen. He was much struck with the great neatness and regularity displayed in everything connected with the works. The drainage and fencing of the platforms and the formation and thatching of the heaps were unexceptionable; and the early date at which the manufacture was commenced was most satisfactory. Mr. Thornhill was assured by the Collector that the Kistnapatam station is in no way superior to other stations in the district.

3. The Board are of opinion that the state of things reported by the 1st Member reflects great credit on Mr. Plunkett the Deputy-Collector in charge of Salt in the district, and shows what can be done by officers of energy and administrative tact. They resolve to bring Mr. Plunkett's good conduct to the notice of Government.

4. The specimens of salt will be sent to the Collectors of Chingleput and South Arcot. The Board see no reason why if salt of such good quality can be produced in Nellore by the middle of February, equally good results could not be obtained in those districts.

No. 90. ORDER THEREON, 16th April 1874, No. 447.

Separate Revenue, No. 4.
Salt.

THE Government regard with satisfaction this testimony to Mr. Plunket's zealous and successful discharge of his duties.

(True Extract.)
