No. 121. Read the following letter from Captain CAMPBELL WALKER, Officiating Inspector of Forests, to C. G. MASTER, Esq., Acting Secretary to Government, Revenue Department, dated Ootacamund, 31st March 1874, No. 3,033 :—

ADVERTING to paragraph 3 of G. O., dated 27th October 1873, No. 1,194, I have the honour to state that the cubical contents of the saplings, etc., felled in Nelumbur and those of the poonspars felled in South Canara not having been given by the forest officers in their reports, the statement of yield of forests was necessarily imperfect, and those items appear to have been altogether omitted in its compilation.

2. Under Section 4 of his report, Mr. Douglas stated that 21,985 cubic feet of timber were "*removed and sold.*" This quantity has apparently been reduced to 21,651 cubic feet in the Central Office, and these figures given in the Conservator's report in lieu of those entered in "Statement B, timber felled," hence the discrepancy. I am unable to explain the alteration of the figures, and Mr. Douglas, in a memorandum which I have received from him on the subject, points out that other statements and accounts have also been altered, without any communication with him. An objectionable practice seems, indeed, to have obtained in the Central Office, but, considering the time which has elapsed and the changes which have occurred, I do not consider it necessary to go farther into the matter. In future, no change, however trivial, will be allowed in the range accounts without communication with the officer in charge and an explanation suggesting or justifying the alteration.

3. The Conservator appears to have omitted by an oversight to enter the quantity of bamboos and firewood felled in Nelumbur and South Canara under Section 4 "Yield of Forests."
