5th May 1874.

No. 61. Read the following Proceedings of the Board of Revenue, dated 30th April 1874, Miscellaneous No. 2,863 :—

Read the following letter from H. S. THOMAS, Esq., Collector of South Canara, to J. GROSE, Esq., Secretary to the Board of Revenue, dated Mangalore, 22nd April 1874, No. 737.

I have the honour to submit, for the sanction of the Board of Revenue and the provision of the necessary funds for its execution, an emergent estimate, amounting to Rupees 230, supplied to me by the District Engineer for repairing the southern wall of the taluq cutcherry compound at Mangalore, a portion of which has recently collapsed and the remaining portion of which is also in danger.

2. The wall, 40 feet in length, was built for the purpose of retaining the earth of the taluq cutcherry compound from being washed away into a hollow portion of the ground outside, and answered at the same time as a compound wall. During the last monsoon a portion, 19 feet in length, collapsed, and a further portion of 12 feet in length is again in danger of giving way, as a crack has appeared.

3. If the wall is not immediately repaired, it is probable that the whole will come down during the monsoon which is approaching. I have, therefore, the honour to request that the estimate may be sanctioned and the necessary funds. The Engineer states that he has no funds at his disposal to meet the cost of the work.

Submitted for the favourable consideration of Government.

No. 62. ORDER THEREON, 5th May 1874, No. 548.

Miscellaneous.

The estimate is sanctioned ; funds will be provided in the Public Works Department.

From *N. 737.*
H. S. Thomas Esquire,
Collector of South America
To J. Grose Esquire,
Secretary to the Board of Revenue
Madras.

Sir,

I have the honor to acknowledge
for the attention of the Board of Revenue
and the provision of the necessary funds
for the execution of an Emergency estimate
amounting to Rs. 230 submitted
by the District Engineer for repairing the
Eastern wall of the Salubri Beach Compound
at Mangalore a portion of which has
recently collapsed and the remaining portion
of which is also in danger.

The wall, 40 feet in length,
was

was built for the purpose of retaining the
earth of the Lake's Backside Embankment
from being washed away into a hollow
rooted off the ground surface, and covered
at the same time as a compound wall.
During the last monsoon a portion,
19 feet in length, collapsed, and a
further portion of 12 feet in length
is again in danger of giving way, as
a crack has appeared.

3. If the wall were imme-
diately repaired, it is probable that
the whole will come down during the
monsoon which is approaching. I have
therefore the honor to request that the
Government may be so good as to
provide the necessary funds for its early
execution.

executed by the Public Works Department,
as the District Engineer states that he has
no funds at his disposal to meet the
cost of the work.

I have the
honor to be,
