*Proceedings of the Madras Government, Revenue Department,
6th May 1874.*

No. 80. Read the following Proceedings of the Board of Revenue, dated 24th January 1874, No. 116:—

Read the following letter from the Hon. V. RAMIENGAR, C.S.I., Superintendent of Stamps, to H. E. STOKES, Esq., Acting Secretary to the Board of Revenue, dated Madras, 6th October 1873, No. 1,345:—

I HAVE the honour to submit the Annual Report on the operations of the Stamp Department during the past fasli (1282), A.D. 1872-73, accompanied by the usual explanatory statements.

2. Statement No. 1 shows the transactions of the Stamp Office. The balance of stock at the commencement of the year, the receipts and issues during the year, and the balance in store at its close, are shown in the following abstract:—

*Proceedings of the Madras Government, Revenue Department,
6th May 1874*

The opening balance amounted to Rupees 465,41,233-7-0. The manufacture of Court Fees impressed stamps entirely ceased owing to the introduction of adhesive stamps imported from England. The only stamps locally prepared during the year under report were those used under the General Stamp Act, and they amounted to Rupees 11,22,097-12-0. Adhesive labels to the amount of Rupees 24,08,685 were received from England and Calcutta. Stamps of the value of Rupees 20,38,439-2-0, consisting chiefly of the old makeshift Court Fees stamps and impressed red-and-black stamps, were returned from the districts as no longer required. The vendor at the Sea Customs House at Madras was allowed to return to this office stamps of different descriptions, valued at Rupees 6,066-8-0, on his ceasing to be a vendor on the discount system. These additions raised the stock to Rupees 521,20,321-11-0. On the other hand, the issues amounted to Rupees 43,18,819-11-0, which reduced the balance of stock at the close of the year to Rupees 473,01,502. This includes, as usual, a small inefficient balance, viz., Rupees 38,013-8-0.

3. It will be seen that obsolete and useless stamps of the value of upwards of 14 lakhs of Rupees were destroyed during the year. This has reduced the number of different descriptions of stamps in use from eleven to nine. This will be reduced still further when the present stock of red and-black impressed stamps is exhausted or destroyed and the use of special adhesive stamps is extended to Bills of Exchange and Lading supplied to districts.

4. *Statement No. 2.*—This shows the transactions in the several districts. The balance in the Collectorate treasuries at the beginning of the year amounted to Rupees 181,80,867-12-6. The receipts and issues during the year with the closing balance are given below:—

Proceedings of the Madras Government, Revenue Department,
6th May 1874.

The stock in the districts on the last day of the fasli was thus Rupees 162,91,889, or Rupees 18,88,979 less than on the corresponding date of the previous year.

5. It is satisfactory to note that what with diminished supplies, increased sales, and withdrawal and destruction of useless stamps, the district balances, which had stood at Rupees 192,57,810 at the commencement of Fasli 1281, were reduced at the end of Fasli 1282 to Rupees 162,91,889, or by nearly 30 lakhs in two years.

6. Between the above abstract and that given at the foot of paragraph 2 there is an apparent discrepancy which should perhaps be noticed. The value of stamps returned from the districts, according to the latter, was Rupees 20,38,439-2-0, according to the former it is only Rupees 12,36,233-14-0. The difference (Rupees 8,02,150-4-0) was, as explained in paragraph 7 of last year's report, received in this office in Fasli 1282, whereas it was despatched and written off in the district accounts in the preceding year. In like manner, the value of stamps despatched to other districts from Bellary was Rs. 1,24,587, whereas only Rs. 1,19,235, of this was received within the Fasli. The difference, Rupees 5,352, will appear in the current year's accounts.

7. Statement No. 4.—The sales of the different descriptions of stamps during the past as compared with the previous fasli are shown below:—

The receipts from Court Fees stamps sold amounted to Rupees 23,70,552-12-2 and exceeded those of Fasli 1281 by Rupees 13,115-13-6. The falling off in the sale of impressed stamps, and the more than corresponding increase in that of the new adhesive labels, show that the former is being superseded by the latter. The net result is, as above stated, an increase of upwards of 12,000 Rupees over the previous year. Some districts show a large increase, e. g.—

8. In the sale of non-judicial stamps the increase is much larger, being nearly 70,000 Rupees. This occurs in seventeen out of the twenty-one districts, the exceptions being Nellore,* Cuddapah,† Kurnool,‡ and Madras,§ in which there is a falling off aggregating 12,706 Rupees. The decrease is largest in Kurnool, being rather more than ten per cent. of the receipts of Fasli 1281. This is apparently accounted for by the falling off in the number of registered deeds, as shown in the margin; but, in the case of Cuddapah and Madras, I am unable to trace the decrease to a similar cause, as the number of registered documents in them is larger than in the previous year.

9. Under the head of "Bills of Exchange" there is a considerable decrease, amounting to Rupees 6,932-10-0, or upwards of thirteen per cent. Looking through the districts I find that in Godavery the receipts have fallen from Rupees 4,911-8-0 in Fasli 1281 to Rupees 2,589-5-0, or nearly one-half; in Tanjore, from Rupees 2,679-2-0 to Rupees 1,335-7-0, or rather more than one half; in Tinnevely, from Rupees 1,244-10-0 to Rupees 720-14-0; in Madura, from Rupees 1,432 to Rupees 825-5-0; in Coimbatore, from Rupees 1,113-15-0 to Rupees 394-5-0; in Kistna, from Rupees 1,403-4-0 to Rupees 1,372-2-0; and in Bellary, from Rupees 5,897-7-0 to Rupees 4,044-2-0. There is no doubt that this result is due, in a great measure, to the general depression of trade, and probably, in some degree, to the increasing use of currency notes and money orders for remittances; but it may be questioned whether the requirements of the law are not also evaded to some extent at least. It is remarkable that, in the midst of the general falling off which has been noticed in the sale of bill stamps, there is an increase to the extent of Rupees 511-7-0 in Cuddapah and of Rupees 772-1-0 in Madras. It is also noteworthy that in the comparatively prosperous district of South Arcot the amount of transactions in hoondies is represented by a revenue of Rupees 6-12-0.

10. The quantity of foreign bill stamps sold is nearly the same as in the previous year. Here also I cannot help thinking that there must be some evasion of the law. It may be that, from ignorance that the use of a distinctive stamp is intended for foreign bills, the adhesive receipt stamps are used to a certain extent; but, even after making allowance for this, it strikes me that the sale of foreign

*Proceedings of the Madras Government, Revenue Department,
6th May 1874.*

bill stamps is smaller than it need be. For instance, in Cuddapah ~~the~~ the sale under this head is nil. Is it to be supposed that these districts have no transactions whatever with Hyderabad? Again, South Arcot is ~~not~~ notwithstanding the proximity of Pondicherry, from which I presume there are some hoondies or bills received and negotiated within our limits. Tanjore, Tinnevely, and Madura also present a blank this year. It is difficult to account for this unless by supposing that there has been none of the usual trade between the ports of these districts and Colombo.

11. In the stamped Bills of Lading sold there is a small increase.

12. The revenue from the sale of revenue adhesive stamps amounted to Rupees 39,476-11-0, or Rupees 2,403-3-0 above that of the previous year. The increase occurs chiefly in the districts of Kistna, Cuddapah, Bellary, Madras, Salem, Tanjore, Trichinopoly, Madura, and Coimbatore. A small decrease occurs in Vizagapatam, Kurnool, South Arcot, Tinnevely, and South Canara.

13. The sale of transfer stamps is confined to Madras, and was less in the year under report than in the preceding fasli, owing doubtless to diminished transactions in Bank shares, which are a drug in the market.

14. REVENUE.—Thus the revenue from the sale of the different descriptions of stamps in the districts amounted to Rupees 39,28,185-15-6, or Rupees 78,416-4-6 more than in the previous year. The following receipts from other sources must now be noticed:—

Court Fees adhesive stamps of the value of Rupees 4,850 were sold in the Stamp Office against Rupees 1,51 in the preceding year. The duty realized under Sections 20 and 24 of the Stamp Act on unstamped and insufficiently stamped documents, both by Collectors and the Civil Courts, amounted to Rupees 11,441-9-4, and was in excess of the receipts on the same account in Fasli 1281. In the Stamp Office, while the receipts under the Court Fees Act were in excess of those of the previous year, the duty collected under the General Stamp Act fell off by Rupees 16,125-2-0. I am indebted for this only by the general depression of trade and of all mercantile transactions.

15. The amount of extra revenue realized is less by Rupees 1,193-5-10 than in Fasli 1281. This is the result of a gross increase of Rupees 3,789-0-8 in the amount realized on complaints of offences under Section 18 of the Court Fees Act and other items, and of a gross decrease of Rupees 4,982-6-6 in the amount of penalties collected, in the stamp duty received in pauper suits, in the cost of water-marked paper supplied for the use of the Mysore Administration, and in other minor items.

16. Adding the aggregate receipts from the above sources to the revenue from the sale of stamps in the districts, as shown in paragraph 6, the gross revenue amounted to Rupees 42,28,798-9-9, which is in excess by Rupees 69,025-8-2 of that of the previous year.

	2,72,420 2 0	2,93,052 15 10	+ 20,632 13 10

The cost of the establishment at the Presidency and incidental expenses were little more than one-half of that of the previous year, owing chiefly to no water-marked paper and indelible ink having been imported from England during the fasli; on the other hand, the district charges were higher by Rupees 26,621-2-8, owing principally to the larger amount paid on account of commission and discount to vendors on the larger sales of the year, so that the net result is a decrease of Rupees 7,849-14-10 in the establishment and other working charges.

18. The charges shown in the latter part of the foregoing statement consist of refunds sanctioned by law. Here there is a considerable increase in almost every item. In the amount refunded under Sections 13, 14, and 15 of the Court Fees Act there is an increase of nearly 8,000 Rupees over the preceding year, due principally to some heavy cases having been remanded in appeal by the High Court. The value of spoiled stamps refunded under the General Stamp Act was also larger by Rupees 4,450-6-5, which is the result of a gross increase of Rupees 7,932-7-9 in fourteen districts and of a gross decrease of Rupees 3,482-1-4 in the remaining seven districts.

*Proceedings of the Madras Government, Revenue Department,
6th May 1874.*

The refunds under the Court Fees Act were likewise larger, being Rupees 10,841-5-2 in the year under report against Rupees 2,069-0-2 in the preceding fasli. The increase occurs in the districts marginally noted, and is due perhaps to the rules for refunds which came into force in April 1872 affording greater facilities for making these refunds than had previously existed. The next item "Refund of Stamp Duty erroneously collected" was made in Salem and North Arcot under the orders marginally noted. The last item refers to the stamps which the vendor at the Sea Customs Office was allowed to return under the orders of Government, dated 20th December 1872, No. 1,706, on his being appointed a salaried vendor.

19. Thus the gross charges debitable to "Stamp Revenue" amounted to Rupees 2,93,052-15-10, or Rupees 20,632-13-10 more than in the previous year. Deducting this sum from the gross receipts, amounting, as already shown, to Rupees 42,28,798-9-9, the net revenue of the year was Rupees 39,35,745-9-11, which exceeds by nearly half a lakh of Rupees that of Fasli 1231, which, as shown in the last report, was the highest revenue on record.

20. The usual statement appertaining the receipts and charges under the heads of "Law and Justice" and "Stamp Revenue" is appended:—

*Proceedings of the Madras Government, Revenue Department,
6th May 1874.*

It will be seen that while the charges under both heads exceed those of the previous year the net revenue under "Judicial" is less and that under "Non-judicial" more than the corresponding figures in Fasli 1281.

21. The Special Statements Nos. 5 and 6 have already been submitted.

Enclosures Nos. 1 to 4.—Statements.

In the foregoing letter the Superintendent of Stamps reports on the transactions of his department for Fasli 1282 or the year ending 30th June 1873, and submits the usual statements illustrating the results in detail.

2. The two Special Returns of Sales of Stamps and the Receipts and Disbursements of the Stamp Department required by the Government of India have already been forwarded to Government with Board's Proceedings, dated 1st November 1873, Miscellaneous No. 7,384.

3. During Fasli 1282 there were nine descriptions of stamps in use while the number in use in Fasli 1281 was eleven. The decrease was the result of the withdrawal of the Small Cause Court and Custom application stamps and the substitution for them of the ordinary Court Fee stamps. The subjoined statement shows the number of values available with the maximum and minimum values in each description of stamps:—

Description of Stamps.	Number of values available.	Minimum value.	Maximum value.
<i>Judicial.</i>			
Court Fees stamped papers	165	1 Anna.	2,000 Rupees.
Do. Adhesive Stamps	29	1 "	1,000 "
<i>Non-judicial or General.</i>

Foreign Bill Stamps	16	2 Annas.	24 Rupees.
Transfer Stamps	15	1 Anna.	20 "
Special Adhesive Stamps	25	2 Annas.	1,000 "

4. The stamp transactions of the Superintendent and of the Collectors are separately detailed in Statements 1 and 2, and they will be noticed in the same order below.

5. *Transactions of the Superintendent.*—The value of the stock of stamps on hand with the Superintendent at the commencement of the year was Rupees 465,11,233-7-0. This was raised to Rupees 521,20,321-11-0 by subsequent receipts, consisting of the stamps manufactured at the office of the Commissioner of Paper Currency, the stamps received from England and Calcutta, and the stamps returned from the districts and Coorg and by the vendor at the Sea Customs House, Madras. The issues of the year, including stamps of the value of Rupees 14,06,222-11-0 sent to the Board for destruction, amounted to Rupees 48,18,819-11-0.

*Proceedings of the Madras Government, Revenue Department,
6th May 1874.*

Thus the balance left at the end of the year was Rupees 473,01,502. This balance includes Rupees 38,013-8-0, the value of stamps forwarded to the Collectors but not acknowledged by them within the year.

6. The subjoined abstract shows the receipts and issues in some detail:—

7. Between the value of stamps entered in the foregoing abstract as received from the Commissioner of Paper Currency in charge of the Stamping Department and that entered in the Special Return submitted by this Officer under date the 10th September 1873 there is a small difference of Rupees 1-2-0, which the Superintendent is requested to explain.

8. The total value of stamps received during Fasli 1282 is less than that in Fasli 1281 owing to the large stock on hand.

9. The issues were also smaller during the year owing to the heavy stock on hand in the districts though the number and value entered under that head are nominally larger in consequence of their including stamps destroyed,

which were of greater value during Fasli 1282 than in Fasli 1281.

*Proceedings of the Madras Government, Revenue Department,
6th May 1874.*

10. *Transactions of Collectors.*—The balance of stamps in the Collectorate treasuries at the commencement of the fasli was Rupees 181,80,867-12-6; subsequent receipts raised it to Rupees 215,87,524-10-6. Deducting the sales and issues and the value of stamps returned to the Superintendent the amount left at the end of the year was Rupees 162,91,889-4-0. Details of these transactions are given below:—

11. The balance of stamps at the end of the year was less than that at its commencement by Rupees 18,88,978-8-6. This was the result of the smaller supplies by the Superintendent, the comparatively larger sales of the year, and the larger quantity of stamps returned to the Superintendent. The balance left, however, is still unnecessarily large compared with the sales, which are not more than 40 lakhs, and the Board hope that endeavours for its reduction will still be continued.

12. In the foregoing abstract it will be observed that the quantity of stamps entered under "Receipts" as received from one district by another falls short of the quantity written off on that account under the head "Issues" by Rupees 5,352. This difference represents the value of stamps despatched from

Bellary to other districts but not received in the latter within Fasli 1282. The Treasury Officer of Bellary ought not to have written them off before their receipt was intimated to him by the receiving officers. The Board have had repeatedly to notice similar mistakes in Bellary, and they trust the Treasury Officer of the district will not give occasion for a similar remark again.

13. A like discrepancy is observed in regard to the value of stamps returned to the Superintendent by Collectors and the stamps received by him. This is the result, as explained by the Superintendent, of errors committed in the preceding fasli, in which consignments unacknowledged by him were finally written off in some of the Collectorate accounts.

14. *Stamp Revenue.*—The Board will now review the cash receipts and disbursements of the Stamp Department. The gross receipts from the sales of stamps and from other sources amounted to Rupees 42,28,798-9-9 against Rupees 41,59,773-1-7 in Fasli 1281, showing an increase of Rupees 69,025-8-2.

15. *Sales of Stamps.*—The receipts from the sales of stamps alone amounted to Rupees 30,61,930-15-6 including the stamps sold and affixed to private documents at the Stamp Office against Rupees 38,76,759-1-0 in Fasli 1281. The descriptions of stamps of which the sales were higher and those of which the sales were lower than in the preceding year are given below:—

	RS.	A.	P.
<i>Court Fees Stamps.</i>

<i>Non-judicial Stamps.</i>

Adhesive Revenue Stamps	2,409	3	0
Transfer Stamps	312	0	0
Special Adhesive Stamps	3,435	10	0
Net result...	85,171	14	6

16. Sales of Court Fees stamped papers, Bills of Exchange, and share transfer stamps decreased and of all other kinds increased. The decrease in the sale of Court Fees stamped paper is due to the preference given by the public to adhesive stamps, of which a considerably larger quantity was sold in Fasli 1282 than in Fasli 1281. The net result, however, of Court Fees stamp transactions is favourable and shows an increase of Rupees 16,435-13-6.

17. Recently the Board have, at the instance of Government, directed Collectors to issue impressed in lieu of adhesive stamps in all cases where the use of the former is permissible, with a view to clear

off the stock of impressed paper and to admit of the exclusive use of adhesive labels in future. The stock of impressed Court Fees paper to be cleared off was at the end of Fasli 1282 Rs. 101,12,464-7-0.

18. The smaller sales of Bills of Exchange paper is ascribed by the Superintendent to the depression of trade and to the increasing use of Currency Notes and money orders for remittance purposes. The Superintendent at the same time suspects that the requirements of the law in regard to stamp duty on such documents are to some extent evaded. But the Board see no reason to think this. The Superintendent draws his inference chiefly from the very small sales in South Arcot, but the Board observe that the district though prosperous is not a mercantile one, its trade being carried on through Pondicherry, and the sales of hoondy stamps in that district have always been low. It may also be here observed that generally adhesive receipt stamps of 1 Anna value are used for hoondies of any value payable at sight and for hoondies of less than 100 Rupees payable otherwise.

19. The decline in the sale of transfer stamps is directly traced to the small demand in the market for Bank shares and the consequent limited transactions in them.

20. Of the descriptions of stamps of which a larger quantity was sold the increase in Court Fees adhesive label has already been explained; that under foreign bill stamps, Bills of Lading and adhesive revenue stamps is small and calls for no special remark. It must, however, be observed that the Superintendent thinks that the sales of foreign bill stamps are too small and that the requirements of the law in regard to them are violated to some extent. He points out that in Cuddapah, Bellary, South Arcot, Tanjore, Tinnevely, and Madura there have been no sales whatever of these stamps and that yet it cannot be supposed that those districts had no transactions with the adjoining foreign territories of Hyderabad, and Pondicherry or Ceylon. Ignorance of the existence of a special description of stamps for the purpose may have something to do with the small sales as the Superintendent points out, and the Board think it would be well that the Collectors of the districts named should try to enlighten the public by notifications on the subject in the District Gazettes.

21. The transactions under non-judicial stamped paper remain to be noticed.

The increase in this case was large, amounting to Rupees 63,971-6-0. It was contributed to by seventeen districts, the remaining four districts* showing a falling off of Rupees 12,706-5-0. Judging from the number of instruments

registered during the year the number really executed in Nellore and Kurnool appears to have been smaller, but the same explanation seems not to apply to Madras and Cuddapah, where the number of registered documents was greater than in the previous year.

23. In eight* districts the sales were less than in Fasli 1281. By far the largest decrease occurs in Madras. It is partly the result of the general depression of trade and partly of the employment of salaried vendors instead of vendors on the discount system in parts of the town, which has removed the necessity for the purchase by the vendors of large stocks of stamps in anticipation of the public demand.

26. The smaller stamp duty realized by the Superintendent is ascribed by him to the depression of trade in Madras.

27. The other items call for no remark.

28. *Charges.*—The charges of the department, including those incurred in the payment of establishments, etc., and those necessitated by law, such as refunds, etc., amounted to Rupees 2,93,052-15-10 against Rupees 2,72,420-2-0 in Fasli 1281, showing an increase of Rupees 20,632-13-10. was chiefly the result of the very small quantity of water-marked paper purchased during the year. It must, however, be observed that the discount paid to vendors was considerably larger and exhibited an increase of no less than Rupees 27,558. This is accounted for in part by the larger sales of stamps, but, in the main, by the enhanced rates of discount, which were in force for only six months in Fasli 1281, while they prevailed, though with some slight modifications, for nearly nine months during Fasli 1282.

30. The rates, however, now in force are sufficiently moderate, and the supply of Court Fees labels to licensed vendors has been prohibited in all places where there are *ex officio* vendors. The Board, therefore, hope that in Fasli 1283 the charge on this account will be reduced.

31. Of the charges necessitated by there is an increase in every item.

This is due (1), to the remand of certain heavy suits by the High Court, which entailed the refund of a portion of the institution fees; (2), to the refund, under the orders of Board and Government, of heavy stamp duty erroneously collected in certain cases; and (3), to the rules issued in April 1872 authorizing Collectors to refund the value of spoiled Court Fees stamps instead of giving stamp paper of equal value as was done before.

32. Deducting the total charges above detailed from the gross receipts entered in paragraph 14 the net revenue was Rupees 39,35,745-9-11. This is an increase on the revenue of Fasli 1281 of Rupees 48,392-10-4, or nearly half a lakh. It is also the highest revenue from stamps on record.

34. The receipts and charges of the year under notice are apportioned under the heads "Judicial Stamps" and "Non-judicial Stamps" and the same compared with similar particulars for Fasli 1281 in the subjoined statement:—

Total, Net Revenue, Judicial and Non-judicial...	38,82,353	39,35,746	+ 53,393

35. The decrease in the gross receipts under the head "Judicial" is nominal and arises from the penalties levied on unstamped and insufficiently stamped documents under the General Stamp Act having been transferred during the year under notice to the head "Non-judicial."

36. The total stamp revenue as given in the Superintendent's Returns is found to tally with that given by Collectors in the General Demand, Collection, and Balance and Monthly Progress Returns. In regard to charges, however, slight differences have been observed in the case of Madura and Madras, and the Collectors concerned have been called upon to explain them.

Separate Revenue, No. 9.
Stamps.

THE Board of Revenue submit with their review the report of the Superintendent of Stamps for fasli 1282 (1st July 1872 to 30th June 1873).

2. The gross revenue of the year amounted to Rs. 42,28,799 against Rs. 41,59,773 in the previous year. The increase of Rs. 69,026 occurred solely in the sale of Court Fees and Non-judicial Stamps, as shown in the subjoined table:—

Stamps.	Fasli 1281.	Fasli 1282.	Difference.
Court Fees.	RS.	RS.	RS.
{ Impressed	20,93,993	16,77,079	— 4,21,914
{ Adhesive	2,59,654	6,98,004	+ 4,38,350

Total...	41,59,773	42,28,799	+ 69,026

Proceedings of the Madras Government, Revenue Department,
6th May 1874.

3. Under Court Fee Stamps there was a decrease of Rs. 4,21,914 in the sale of "stamped papers" and an increase of Rs. 38,350 in that of "Adhesive Stamps." There is a large stock of Impressed Stamps on hand, and the Board have recently given instructions for their issue in lieu of Adhesive Stamps in all cases in which their use is permissible. The net increase of Rs. 16,436 is apparently the result of an increase in litigation. The increase under Non-judicial Stamps is, on the whole, owing to the growing prosperity of the country. The decrease under Mercantile Stamps is attributed chiefly to the depression of trade and to the increasing use of Currency Notes and Money Orders for remittances from one place to another. The decrease under "Duty on Impressed Stamps" is owing to the depression of trade in Madras.

4. The total charges of the year amounted to Rs. 2,93,053 against Rs. 2,72,420 in fasli 1281; the net increase of Rs. 20,633 was the result of

* Establishment, including commission and discount	RS. 26,747
Refund of Stamp-duty	9,114
Refund of value of damaged and unused Stamps	13,222

gross increase of Rs. 49,388 and a less decrease of Rs. 28,755. The increase* occurred chiefly under the items noted in the margin. The

is due partly to the discount paid on the larger sale of Stamps, and partly to the enhanced rates of discount paid during nine months of the year instead of six months in the previous year. The second was caused by the remand of cases in heavy suits by the High Court, in which a portion of the institution fees had to be paid back, as also by the refund of heavy Stamp-duty erroneously collected. The third was the result of the rules authorizing Collectors to refund the value of spoiled Court Fee Stamps instead of giving stamped paper of equal value, as was done before.

5. The net revenue of the year was Rs. 39,35,746 against Rs. 38,87,353 in fasli 1281, and, as the Board remark, it is the highest revenue from Stamps on record.

6. The Board remark, in the concluding paragraph of their Proceedings, that the total Stamp-revenue, as given in the Superintendent's returns, is found to tally with that given by the Collectors

As per Settlement Report	RS. 42,27,205

in their returns; but the Government observe that the figures given in the report under review differ from those entered in the Settlement Report for fasli 1282, as shown in the margin.

PROCEEDINGS OF THE BOARD OF REVENUE, dated 24th January 1874.

Read the following letter from the Hon. V. RAMIENGAR, c.s.i., Superintendent of Stamps, to H. E. STOKES, Esq., Acting Secretary to the Board of Revenue, dated Madras, 6th October 1873, No. 1,345:—

I HAVE the honour to submit the Annual Report on the operations of the Stamp Department during the past fasli (1282), A.D. 1872-73, accompanied by the usual explanatory statements.

2. Statement No. 1 shows the transactions of the Stamp Office. The balance of stock at the commencement of the year, the receipts and issues during the year, and the balance in store at its close, are shown in the following abstract:—

The opening balance amounted to Rupees 465,41,233-7-0. The manufacture of Court Fees impressed stamps entirely ceased owing to the introduction of adhesive stamps imported from England. The only stamps locally prepared during the year under report were those used under the General Stamp Act, and they amounted to Rupees 11,22,097-12-0. Adhesive labels to the amount of Rupees 21,08,635 were received from England and Calcutta. Stamps of the value of Rupees 20,38,439-2-0, consisting chiefly of the old makeshift Court Fees stamps and impressed red-and-black stamps, were returned from the districts as no longer required. The vendor at the Sea Customs House at Madras was allowed to return to this office stamps of different descriptions, valued at Rupees 6,068-8-0, on his ceasing to be a vendor on the discount system. These additions raised the stock to Rupees 521,20,321-11-0. On the other hand, the issues amounted to Rupees 48,18,819-11-0, which reduced the balance of stock at the close of the year to Rupees 473,01,502. This includes, as usual, a small inefficient balance, viz., Rupees 33,013-8-0.

3. It will be seen that obsolete and useless stamps of the value of upwards of 14 lakhs of Rupees were destroyed during the year. This has reduced the number of different descriptions of stamps in use from eleven to nine. This will be reduced still further when the present stock of red and-black impressed stamps is exhausted or destroyed and the use of special adhesive stamps is extended to Bills of Exchange and Lading supplied to districts.

4. Statement No. 2.—This shows the transactions in the several districts. The balance in the Collectorate treasuries at the beginning of the year amounted to Rupees 131,80,867-12-6. The receipts and issues during the year with the closing balance are given below:—

The stock in the districts on the last day of the fasli was thus Rupees 162,91,889, or Rupees 18,88,979 less than on the corresponding date of the previous year.

5. It is satisfactory to note that what with diminished supplies, increased sales, and withdrawal and destruction of useless stamps, the district balances, which had stood at Rupees 192,57,810 at the commencement of Fasli 1281, were reduced at the end of Fasli 1282 to Rupees 162,91,889, or by nearly 30 lakhs in two years.

6. Between the above abstract and that given at the foot of paragraph 2 there is an apparent discrepancy which should perhaps be noticed. The value of stamps returned from the districts, according to the latter, was Rupees 20,38,439-2-0, according to the former it is only Rupees 12,36,238-14-0. The difference (Rupees 8,02,150-4-0) was, as explained in paragraph 7 of last year's report, received in this office in Fasli 1282, whereas it was despatched and written off in the district accounts in the preceding year. In like manner, the value of stamps despatched to other districts from Bellary was Rs. 1,24,587, whereas only Rs. 1,19,235, of this was received within the Fasli. The difference, Rupees 5,352, will appear in the current year's accounts.

The receipts from Court Fees stamps sold amounted to Rupees 23,70,252-12-6 and exceeded those of Fasli 1281 by Rupees 13,115-13-6. The falling off in the sale of impressed stamps, and the more than corresponding increase in that of the new adhesive labels, show that the former is being superseded by the latter. The net result is, as above stated, an increase of upwards of 13,000 Rupees over the previous year. Some districts show a large increase, e. g.—

8. In the sale of non-judicial stamps the increase is much larger, being nearly 70,000 Rupees. This occurs in seventeen out of the twenty-one districts, the exceptions being Nellore,* Cuddapah,† Karnool,‡ and Madras.§ in which there is a falling off aggregating 12,706 Rupees. The decrease is largest in Karnool, being rather more than ten per cent. of the receipts of Fashi 1281. This is apparently accounted for by the falling off in the number of registered deeds, as shown in the margin; but, in the case of Cuddapah and Madras, I am unable to trace the decrease to a similar cause, as the number of registered documents in them is larger than in the previous year.

9. Under the head of "Bills of Exchange" there is a considerable decrease, amounting to Rupees 6,932-10-0, or upwards of thirteen per cent. Looking through the districts I find that in Godavery the receipts have fallen from Rupees 4,911-8-0 in Fashi 1281 to Rupees 2,583-5-6, or nearly one-half; in Tanjore, from Rupees 2,679-2-0 to Rupees 1,335-7-0, or rather more than one-half; in Tinnevelly, from Rupees 1,244-10-0 to Rupees 720-14-0; in Madura, from Rupees 1,122 to Rupees 825-5-0; in Coimbatore, from Rupees 643-15-0 to Rupees 394-5-0; in Kistna, from Rupees 1,403-4-0 to Rupees 1,017-10-0; and in Bellary, from Rupees 5,897-7-0 to Rupees 1,014-2-0. There is no doubt that this result is due, in a great measure, to the general depression of trade, and probably, in some degree, to the increasing use of currency notes and money orders for remittances; but it may be questioned whether the requirements of the law are not also evaded to some extent at least. It is remarkable that, in the midst of the general falling off which has been noticed in the sale of bill stamps, there is an increase to the extent of Rupees 511-7-0 in Cuddapah and of Rupees 773-1-0 in Madras. It is also noteworthy that in the comparatively prosperous district of South Arcot the amount of transactions in hoondies is represented by a revenue of Rupees 6-12-0.

10. The quantity of foreign bill stamps sold is nearly the same as in the previous year. Here also I cannot help thinking that there must be some evasion of the law. It may be that, from ignorance that the use of a distinctive stamp is intended for foreign bills, the adhesive receipt stamps are used to a certain extent; but, even after making allowance for this, it strikes me that the sale of foreign

bill stamps is smaller than it need be. For instance, in Cuddapah and Bellary the sale under this head is *nil*. Is it to be supposed that these districts have no transactions whatever with Hyderabad? Again, South Arcot is *nil* notwithstanding the proximity of Pondicherry, from which I presume there are some hoondies or bills received and negotiated within our limits. Tanjore, Tinnevelly, and Madura also present a blank this year. It is difficult to account for this unless by supposing that there has been none of the usual trade between the ports of these districts and Colombo.

11. In the stamped Bills of Lading sold there is a small increase.

12. The revenue from the sale of revenue adhesive stamps amounted to Rupees 39,476-11-0, or Rupees 2,409-3-0 above that of the previous year. The increase occurs chiefly in the districts of Kistna, Cuddapah, Bellary, Madras, Salem, Tanjore, Trichinopoly, Madura, and Coimbatore. A small decrease occurs in Vizagapatam, Karnool, South Arcot, Tinnevelly, and South Canara.

13. The sale of transfer stamps is confined to Madras, and was less in the year under report than in the preceding fashi, owing doubtless to diminished transactions in Bank shares, which are a drug in the market.

14. REVENUE.—Thus the revenue from the sale of the different descriptions of stamps in the districts amounted to Rupees 39,23,185-15-6, or Rupees 78,416-4-6 more than in the previous year. The following receipts from other sources must now be noticed:—

The refunds under the Court Fees Act were likewise larger, being Rupees 10,841-5-2 in the year under Kistna, Nellore, Tanjore, Tinnevely, and Coimbatore. report against Rupees 2,600-0-2 in the preceding fasli. The increase occurs in

the districts marginally noted, and is due perhaps to the rules for refunds which came into force in April 1872 affording greater facilities for making these refunds than had previously existed. The next item "Refund of Stamp Duty erroneously collected" was made in Salem and North

Salem—Proceedings of the Board of Revenue, No. 151, of 4th February 1873.

North Arcot—Proceedings of the Madras Government, dated 21th February 1873, No. 203.

Arcot under the orders marginally noted. The last item refers to the stamps which the vendor at the Sea Customs Office

was allowed to return under the orders of Government, dated 20th December 1872, No. 1,706, on his being appointed a

salariated vendor.

19. Thus the gross charges debitable to "Stamp Revenue" amounted to Rupees 2,93,052-15-10, or Rupees 20,632-13-10 more than in the previous year. Deducting this sum from the gross receipts, amounting, as already shown, to Rupees 42,23,793-9-9, the net revenue of the year was Rupees 39,35,745-9-11, which exceeds by nearly half a lakh of Rupees that of Fasli 1281, which, as shown in the last report, was the highest revenue on record.

20. The usual statement apportioning the receipts and charges under the heads of "Law and Justice" and "Stamp Revenue" is appended:—

21. The Special Statements Nos. 5 and 6 have already been submitted.

Enclosures Nos. 1 to 4.—Statements.

Is the foregoing letter the Superintendent of Stamps reports on the transactions of his department for Fasli 1282 or the year ending 30th June 1873, and submits the usual statements illustrating the results in detail.

2. The two Special Returns of Sales of Stamps and the Receipts and Disbursements of the Stamp Department required by the Government of India have already been forwarded to Government with Board's Proceedings, dated 1st November 1873, Miscellaneous No. 7,351.

3. During Fasli 1282 there were nine descriptions of stamps in use while the number in use in Fasli 1281 was eleven. The decrease was the result of the withdrawal of the Small Cause Court and Custom application stamps and the substitution for them of the ordinary Court Fee stamps. The subjoined statement shows the number of values available with the maximum and minimum values in each description of stamps:—

4. The stamp transactions of the Superintendent and of the Collectors are separately detailed in Statements 1 and 2, and they will be noticed in the same order below.

5. *Transactions of the Superintendent.*—The value of the stock of stamps on hand with the Superintendent at the commencement of the year was Rupees 465,41,233-7-0. This was raised to Rupees 521,20,321-11-0 by subsequent receipts, consisting of the stamps manufactured at the office of the Commissioner of Paper Currency, the stamps received from England and Calcutta, and the stamps returned from the districts and Coorg and by the vendor at the Sea Customs House, Madras. The issues of the year, including stamps of the value of Rupees 11,06,222-11-0 sent to the Board for destruction, amounted to Rupees 48,18,819-11-0.

Thus the balance left at the end of the year was Rupees 473,01,502. This balance includes Rupees 38,013-8-0, the value of stamps forwarded to the Collectors but not acknowledged by them within the year.

6. The subjoined abstract shows the receipts and issues in some detail:—

7. Between the value of stamps entered in the foregoing abstract as received from the Commissioner of Paper Currency in charge of the Stamping Department and that entered in the Special Return submitted by this Officer under date the 10th September 1873 there is a small difference of Rupees 1-2-0, which the Superintendent is requested to explain.

8. The total value of stamps received during Fasli 1282 is less than that in Fasli 1281 owing to the large stock on hand.

9. The issues were also smaller during the year owing to the heavy stock on

which were of greater value during Fasli 1282 than in Fasli 1281.

10. *Transactions of Collectors.*—The balance of stamps in the Collectorate treasuries at the commencement of the fasli was Rupees 181,80,867-12-6; subsequent receipts raised it to Rupees 215,87,524-10-6. Deducting the sales and issues and the value of stamps returned to the Superintendent the amount left at the end of the year was Rupees 162,91,889 4-0. Details of these transactions are given below:—

Deficiency found in stock	1	2	0
	52,85,635	6	6
Balance at the end of the year	162,91,889	4	0

11. The balance of stamps at the end of the year was less than that at its commencement by Rupees 18,88,978 8-6. This was the result of the smaller supplies by the Superintendent, the comparatively larger sales of the year, and the larger quantity of stamps returned to the Superintendent. The balance left, however, is still unnecessarily large compared with the sales, which are not more than 40 lakhs, and the Board hope that endeavours for its reduction will still be continued.

12. In the foregoing abstract it will be observed that the quantity of stamps entered under "Receipts" as received from one district by another falls short of the quantity written off on that account under the head "Issues" by Rupees 5,352. This difference represents the value of stamps despatched from

	RS.	A.	P.

Bellary to other districts but not received in the latter within Fasli 1282. The Treasury Officer of Bellary ought not to have written them off before their receipt was intimated to him by the receiving officers. The Board have had repeatedly to notice similar mistakes in Bellary, and they trust the Treasury Officer of the district will not give occasion for a similar remark again.

13. A like discrepancy is observed in regard to the value of stamps returned to the Superintendent by Collectors and the stamps received by him. This is the result, as explained by the Superintendent, of errors committed in the preceding fasli, in which consignments unacknowledged by him were finally written off in some of the Collectorate accounts.

14. *Stamp Revenue.*—The Board will now review the cash receipts and disbursements of the Stamp Department. The gross receipts from the sales of stamps and from other sources amounted to Rupees 42,28,798-9-9 against Rupees 41,59,773-1-7 in Fasli 1281, showing an increase of Rupees 69,025-8-2.

15. *Sales of Stamps.*—The receipts from the sales of stamps alone amounted to Rupees 39,61,930-15-6 including the stamps sold and affixed to private documents at the Stamp Office against Rupees 38,76,759-1-0 in Fasli 1281. The descriptions of stamps of which the sales were higher and those of which the sales were lower than in the preceding year are given below:—

<i>Court Fees Stamps.</i>

Special Adhesive Stamps	3,435	10	0
Net result	85,171	14	6

16. Sales of Court Fees stamped papers, Bills of Exchange, and share transfer stamps decreased and of all other kinds increased. The decrease in the sale of Court Fees stamped paper is due to the preference given by the public to adhesive stamps, of which a considerably larger quantity was sold in Fasli 1282 than in Fasli 1281. The net result, however, of Court Fees stamp transactions is favourable and shows an increase of Rupees 16,435-13-6.

17. Recently the Board have, at the instance of Government, directed Collectors to issue impressed in lieu of adhesive stamps in all cases where the use of the former is permissible, with a view to clear

off the stock of impressed paper and to admit of the exclusive use of adhesive labels in future. The stock of impressed Court Fees paper to be cleared off was at the end of Fasli 1282 Rs. 101,12,464-7-0.

18. The smaller sales of Bills of Exchange paper is ascribed by the Superintendent to the depression of trade and to the increasing use of Currency Notes and money orders for remittance purposes. The Superintendent at the same time suspects that the requirements of the law in regard to stamp duty on such documents are to some extent evaded. But the Board see no reason to think this. The Superintendent draws his inference chiefly from the very small sales in South Arcot, but the Board observe that the district though prosperous is not a mere-

tile one, its trade being carried on through Pondicherry, and the sales of hoondy stamps in that district have always been low. It may also be here observed that generally adhesive receipt stamps of 1 Anna value are used for hoondies of any value payable at sight and for hoondies of less than 100 Rupees payable otherwise.

19. The decline in the sale of transfer stamps is directly traced to the small demand in the market for Bank shares and the consequent limited transactions in them.

20. Of the descriptions of stamps of which a larger quantity was sold the increase in Court Fees adhesive stamps has already been explained; that under foreign bill stamps, Bills of Lading, and adhesive revenue stamps is small and calls for no special remark. It must, however, be observed that the Superintendent thinks that the sales of foreign bill stamps are too small and that the requirements of the law in regard to them are violated to some extent. He points out that in Cuddapah, Bellary, South Arcot, Tanjore, Tinnevely, and Madura there have been no sales whatever of these stamps and that yet it cannot be supposed that those districts had no transactions with the adjoining foreign territories of Hyderabad, and Pondicherry or Ceylon. Ignorance of the existence of a special description of stamps for the purpose may have something to do with the small sales as the Superintendent points out, and the Board think it would be well that the Collectors of the districts named should try to enlighten the public by notifications on the subject in the District Gazettes.

21. The transactions under non-judicial stamped paper remain to be noticed.

The increase in this case was large, amounting to Rupees 63,971-6-0. It was contributed to by seventeen districts, the remaining four districts* showing a falling off of Rupees 12,706 5-0. Judging from the number of instruments

registered during the year the number really executed in Nellore and Kurnool appears to have been smaller, but the same explanation seems not to apply to Madras and Cuddapah, where the number of registered documents was greater than in the previous year.

22. In the subjoined statement the total sales of stamps in each district are compared with similar figures for Fasli 1281:—

23. In eight* districts the sales were less than in Fasli 1281. By far the largest decrease occurs in Madras. It is partly the result of the general depression of trade and partly of the employment of salaried vendors instead of vendors on the discount system in parts of the town, which has removed the necessity for the purchase by the vendors of large stocks of stamps in anticipation of the public demand.

* Godavery, Nellore, Cuddapah, Bellary, Kurnool, Madras, Madura, and Salem.

24. The net result, however, of the sales of stamps in all the districts was an increase of Rupees 85,171-14-6. The districts in which the sales were largest are noted in the margin.

25. Sundry receipts.—The receipts from sources other than the sales of

stamps amounted to Rupees 2,66,867-10-3 against Rupees 2,83,014-0-7 in Fasli 1281, showing a decrease of Rupees 16,146-4-0. Details are given below:—

26. The smaller stamp duty realized by the Superintendent is ascribed by him to the depression of trade in Madras.

27. The other items call for no remark.

28. *Charges.*—The charges of the department, including those incurred in the payment of establishments, etc., and those necessitated by law, such as refunds, etc., amounted to Rupees 2,72,420-2-0 against Rupees 2,72,420-2-0 in Fasli 1281, showing an increase of Rupees 20,632-13-10. 29. The working charges were, on the whole, less by Rupees 7,850. This was chiefly the result of the very small quantity of water-marked paper purchased during the year. It must, however, be observed that the discount paid to vendors was considerably larger and exhibited an increase of no less than Rupees 27,558. This is accounted for in part by the larger sales of stamps, but, in the main, by the enhanced rates of discount, which were in force for only six months in Fasli 1281, while they prevailed, though with some slight modifications, for nearly nine months during Fasli 1282.

30. The rates, however, now in force are sufficiently moderate, and the supply of Court Fees labels to licensed vendors has been prohibited in all places where there are *ex officio* vendors. The Board, therefore, hope that in Fasli 1283 the charges on this account will be reduced.

31. Of the charges necessitated by law there is an increase in every item. This is due (1), to the remand of certain heavy suits by the High Court, which entailed the refund of a portion of the institution fees; (2), to the refund, under the orders of Board and Government, of heavy stamp duty erroneously collected in certain cases; and (3), to the rules issued in April 1872, authorizing Collectors to refund the value of spoiled Court Fees stamps instead of giving stamp paper of equal value as was done before.

32. Deducting the total charges above detailed from the gross receipts entered in paragraph 14 the net revenue was Rupees 39,35,745-9-11. This is an increase on the revenue of Fasli 1281 of Rupees 48,392-10-4, or nearly half a lakh. It is also the highest revenue from stamps on record.

34. The receipts and charges of the year under notice are apportioned under the heads "Judicial Stamps" and "Non-judicial Stamps" and the same compared with similar particulars for Fasli 1281 in the subjoined statement:—

Items.	Fasli 1281.	Fasli 1282.	Difference.
<i>Judicial or Court Fees.</i>			
Gross receipts	RS. 25,31,338	RS. 25,01,704	RS. — 29,634
Disbursements	1,51,206	1,02,595	+ 11,389

<i>Non-judicial or General Stamps.</i>			
Gross receipts	16,23,435	17,27,035	+ 93,600
Disbursements	1,21,214	1,30,458	+ 9,244

Total, Net Revenue, Judicial and Non-judicial...	38,82,353	39,95,686	+ 48,303

35. The decrease in the gross receipts under the head "Judicial" is nominal and arises from the penalties levied by Courts on unstamped and insufficiently stamped documents under the General Stamp Act having been transferred during the year under notice to the head "Non-judicial."

36. The total stamp revenue as given in the Superintendent's Returns is found to tally with that given by Collectors in the General Demand, Collection, and Balance and Monthly Progress Returns. In regard to charges, however, slight differences have been observed in the case of Madura and Madras, and the Collectors concerned have been called upon to explain them.

Read the following Proceedings of the
Board of Revenue

Reviewing and submitting to Govt. report
Supt. of Stamps on operations
Stamp Department during Insti

H. E. 24: Jan'y 1874 N. 116.

The Board of Revenue

submit, with their review,
the report of the Supt. of Stamps
for Insti 1282 (1st July 1872
to 30: June 1873)

2. The gross revenue of
the year amounted to Rs 4,22,879
against Rs 4,15,977 in the
previous year. The increase
of Rs 69,026 occurred solely
in

M. S. S. S.

The sale of Court fees and Non Judicial Stamps, as shown in the subjoined table :-

Stamps	July 1281		July 1282		Difference
	Rs.	P.	Rs.	P.	
Court Fees - {	Impressed	20,98,993	16,77,079		- 4,21,914
	Adhesive	2,55,654	6,98,004		+ 4,38,350
Non Judicial		14,12,960	14,85,368		+ 72,408
Mercantile and Revenue Stamps		105,152	1,00,450		- 4,672
Duty on impressed stamps &c.		2,20,026	2,05,073		- 14,953
Miscellaneous		62,988	61,795		- 1,193
Total		41,55,773	42,28,799		+ 69,026

3. Under Court fee stamps there was a decrease of Rs. 4,21,914 in the sale of "stamped papers", and an increase of Rs. 4,38,350 in that of "adhesive stamps". There is a large stock of impressed stamps on hand, and the Board have recently given instructions for their issue in lieu of adhesive stamps

in all cases in which their use is permissible. The net increase of Rs. 16,436 is apparently the result of an increase in litigation. The increase under Non Judicial Stamps is, on the whole, owing to the growing prosperity of the country. The decrease under Mercantile Stamps is attributed chiefly to the depression of trade, and to the increasing use of currency notes and money orders for remittances from one place to another. The decrease under "Duty on impressed stamps" is owing to the depression of trade in Madras.

4. The total charges of the year amounted to Rs. 2,53,053 against Rs. 2,72,420 in July 1281; the net increase of Rs. 20,633 was the result of

a gross increase of Rs 49,388
and a gross decrease of Rs 28,755.

The increase occurred chiefly
under the three items noted in
the margin. The first is due
partly to the Discount paid on
the larger sale of stamps, and
partly to the enhanced rates of
Discount paid during nine months
of the year, instead of only six
months in the previous year.
The second was caused by the
remand of certain heavy duties
by the High Court in which
a portion of the institution fees
had to be paid back, as also
by the refund of heavy stamp
duty erroneously collected. The
third was the result of the rules
authorizing Collectors to refund the
value of spoiled Court fee stamps,
instead of giving stamped paper
of equal value, as was done before.

The

* Establishment
including Commission
and Discount - Rs 26,747
Refund of Stamp Duty - 9,114
Refund of value of
spoiled and raised
stamps - 13,222

5. The net revenue of the
year was Rs 39,35,746 against
Rs 38,87,353 in Farsi 1281, and,
as the Board remark, it is the
highest revenue from stamps
on record.

6. The Board remark,
in the concluding para of their
Proceedings, that the Tab stamp
revenue, as given in the Superintendent's
Returns, is found to tally
with that given by the Collectors
in their returns, but the Govt.
observe that the figures given
in the report under review
differ from those entered in the
Settlement for Farsi 1282, as shown
in the margin.

* As per Settlement Report Rs 4,22,7205
As given in the present Report - 4,22,8795
Difference Rs 1594
