No. 575.

No. 117.

To

HIS MAJESTY'S POLITICAL AGENT AND CONSUL-GENERAL,
ZANZIBAR.

Forests No. 2.

SIR,—The attention of the Government of Madras has been drawn to an interesting report by Captain Elton on

the "Niti Sandarusi" or Gum Copal tree forwarded by you to the Secretary to the Government of India, Foreign Department, with your letter of the 29th December last, No. 111.

2. Mr. S. Kurz, of the Royal Botanical Gardens, Calcutta, has stated his opinion that this tree as well as the Caoutchouc climber, *Landolphia* sp., might advantageously be introduced into Southern India (Malabar and Travancore).

3. I am, therefore, directed to request that you will be so good as to obtain seeds, or still better young plants, of both species, and forward them direct to Madras, whence they will be forwarded, without delay, to the localities which may appear best suited for their propagation.

I have the honour to be,

Sir,

Your most obedient servant,

(Signed) C. G. MASTER,
Acting Secretary to Government.

Erd. F. R. Bantleman.
