*Proceedings of the Madras Government, Revenue Department,
16th May 1874.*

No. 171. Read the following Proceedings of the Court of Wards, dated 13th May 1874:—

Read the following letter from the Hon. D. ARBUTHNOTT, Collector of Tanjore, to J. GROSE, Esq., Secretary to the Court of Wards, dated Tritrapundi, 7th May 1874, No. 112.

ADVERTING to paragraph 12 of my letter* of the 27th November 1873,

* In the Proceedings of the Court of Wards, dated 16th January 1874, No. 71.

No. 410, I have the honour to submit for the sanction of the Court the following proposals for the marriage of the sister of the Vettangudi minors.

2. The bridegroom selected is a young man of the age of twenty, by name Adikalingamuttukumarasami Udayar, in the village of Kadalangudi, in the Mayaveram Taluq. He is a young man of respectable family and of fair intelligence and education. His parents are both dead, and his only relation is an undivided brother, named Adikalingamutturangappa Andiappa Udayar. These brothers jointly possess a landed estate, of which the annual net income may be roughly taken as Rs. 5,000; it is burdened, however, with debts to the extent of Rs. 18,000.

3. There have been previous inter-marriages between these families, and it is stated that the late proprietor, the minor's father, had this alliance in view.

* Jewels to be presented to the bride	Rs. 789
Do. do. to bridegroom	70
Beds (bridal), boxes, and sundries to be presented to both	105
Cloths to both and to other relations	320
Other miscellaneous expenses, consisting of religious ceremonies, feasts, processions, etc., exclusive of paddy required for table charges	520

Total... 1,804

by the Tahsildar obviously on the most moderate scale consistent with the rank and traditions of the family, and endorsed by the Acting Head Assistant Collector, comes in the aggregate to Rs. 1,804* and 120 kallams of paddy, of which the value, at the current market selling price, may be roughly put down as Rs. 140. Towards this outlay, jewels and sundries of the value

of Rs. 904, as also the requisite paddy, can be made available out of the existing stock, and the balance, viz., Rs. 900, is required to be advanced from the public treasury. It will be recovered, of course, out of next year's produce of the lands of the estate.

5. The gross receipts of the estate for this year, including the estimated outturn of the produce which yet remains to be reaped, come to about Rupees 7,000; but the whole of this sum is required for the current and more pressing charges, including the liquidation of the Government dues and of the advance received for this year's cultivation. Of the advance of Rupees 2,500 sanctioned for the purpose last mentioned, a sum of Rupees 1,900 was drawn, and this has been already repaid. The whole of the Government demand for the current year, with a portion of the arrears outstanding for the past year, will be discharged also out of this year's income.

6. The sum required for the expenses of the marriage may be easily reserved out of this year's produce by a corresponding diminution of the payment for Gov-

ernment dues; but it is not advisable to reserve anything at the credit of the estate, as it will be seized for decrees for debts, for which warrants have been out already in more than one case. As the only effectual means of guarding against this risk, the produce of this year has been from the first placed under distraint for arrears of revenue, and it is desirable always to have a portion of the Government demand in arrear in order to keep a hold over the standing crops.

7. The risk I have indicated also prevents any portion of this year's produce being reserved for the consumption of the family, and I beg I may be authorized to advance from the treasury also such sums, not exceeding Rupees 1,000 on the whole, as may be required for this purpose, crediting thereto the receipts for the estate as they come in.

8. I have the honour to request early sanction for the proposals submitted with respect to the marriage, as well as for the advance asked for, as the bride has already attained the age of sixteen, and her brothers, as also the brother of the bridegroom, are anxious that the solemnization of the ceremony should take place on one of the fine auspicious days which occur between the 17th and 27th instant.

SUBMITTED to Government, with the request that the Collector of Tanjore may be authorized to advance the sum of Rs. 900 from the public treasury on account of the expenses attending the marriage of the sister of the Vettangudi minor.

2. Should the Government see fit to comply with the application, the request that sanction may be communicated to the Collector direct by telegram as the marriage ceremonies should be performed between the 17th and 27th instant.

No. 172. ORDER THEREON, 16th May 1874, No. 602.
