Not to be folded or roughly handled

Proceedings of the Madras Government, Revenue Department,
24th June 1874.

No. 218. Read the following letter from Lieutenant-Colonel W. H. HESSEY, Acting Superintendent of Revenue Survey, to C. G. MASTER, Esq., Acting Secretary to Government, Revenue Department, Fort St. George, dated Chepauk, 18th June 1874, No. 1,578/50:—

In forwarding, in quadruplicate, an emergent supplementary Indent for Photographic chemicals, I have the honour to submit the following explanation of the circumstances under which the articles now indented for are emergently required.

2. The Indent for the supply of Photographic chemicals received from England in November 1871 was based on the assumption that one negative only would be taken daily. The work has been so far successful that there are now on an average three negatives taken. No supply of chemicals having been received for 1874-75, the stock in hand is fast running out. It will not last for more than three months, whilst the probable receipt of the next supply will not be earlier than May next.

No. 219. ORDER THEREON, 24th June 1874, No. 775.

Miscellaneous.

ORDERED to be forwarded to the Government of India for transmission to the Secretary of State.

(True Extract.)

(Signed) C. G. MASTER,
Acting Secretary to Government.

To the Superintendent of Revenue Survey.

Col. C. R. Gentleman.

From

The Actg. Superintendent Rev. Survey.

To

The Secretary to Government
Revenue Department.

SIR,

I have the honor to submit herewith an Indent for Photographic Chemicals, to be ordered from England, for the ensuing year, 1875-76, the Stores to be indented for as required.

2. The Indent for the supply of Photographic Chemicals received from England in November 1873 was based on the assumption that one negative only would be taken daily. The work has been so far conducted that three negatives are now or on an average three negatives taken. No supply of Chemicals having been received for 1874-75, the stock on hand is fast running out. It will not last for more than three months, whilst the probable receipt of the next supply will not be earlier
