No. 156. Read the following letter from L. C. ABBOTT, Esq., Additional Under-Secretary to the Government of Bengal, Agricultural Department, to D. F. CARMICHAEL, Esq., Secretary to the Government of Madras, Revenue Department, dated Calcutta, 22nd December 1873, No. 4,090:—

I AM directed to acknowledge the receipt of your letter No. 1,318, dated the 28th November 1873, and enclosure, furnishing information in respect to the jute plants which grow in the Madras Presidency.

2. The Lieutenant-Governor trusts that the plants, the fibre of which goes by the name of jute or Indian hemp, will be identified, as, in the language of Ship-Captains, a great deal is exported as jute which is not jute. Sir George Campbell himself heard a Ship-Captain say that everything is called jute which is not cotton.

3. Two packets of seed of the plants *C. capsularis* and *C. olitorius* are sent herewith, and I am to request that, with the permission of His Excellency the Governor, the local authorities may be asked to state whether the fibre sent by them are those of the true jute plant, a photograph of which was previously forwarded to you.

Sir,

I am directed to acknowledge the receipt of your letter No. 1318, dated the 28th November 1873, and enclosure furnishing information in respect to the Jute plants which grow in the Madras Presidency.—

2d The Lieutenant-Governor trusts that the plants, the fibre of which goes by the name of Jute or Indian Hemp will be identified, as in the lan-guage of Ship Captains, a great deal is exported as

as Jute which is not Jute. Sir George Campbell him-
self heard a Ship Captain say that every thing is
called Jute which is not Cotton.—

3d Two packets of seed of the plants C. Capsularis
and C. Olitorius are sent herewith and I am to requ-
that with the permission of His Excellency the Governo-
the local authorities may be asked to state whether
the fibre sent by them are those of the true Jute plan
a photograph of which was previously forwarded
to you.—

I have the honor to be,

Sir
