*Proceedings of the Madras Government, Revenue Department,
11th July 1874.*

No. 88. Read the following letter from R. W. LODWICK, Esq., Accountant-General, Madras, to C. G. MASTER, Esq., Acting Secretary to Government, Revenue Department, dated Fort St. George, 24th June 1874, No. 145:—

As the number of Additional Deputy-Collectors, sanctioned in Government of India of 31st January 1874, No. 753, has been exceeded by the appointment of Suriamurti Pillay to Tanjore, I have the honor to suggest that the order for his appointment may be submitted to the Government of India for confirmation.

No. 89. ORDER THEREON, 11th July 1874, No. 865.

Miscellaneous.

RECORDED, with the observation that as P. Subbaiyer and C. Sivasankara Mudali have been removed from the temporary appointments held by them, respectively, in the Madura and Trichinopoly Districts, the number of Additional Deputy-Collectors is still within the number sanctioned, notwithstanding the subsequent appointment of A. Sudarsana Rau to Nellore.

(True Extract.)

(Signed) C. G. MASTER,
Acting Secretary to Government.

To the Accountant-General,
the Board of Revenue.

Exd. F. R. Bantleman.

No. 444.

PROCEEDINGS OF THE BOARD OF REVENUE, dated 24th March 1873.

Read the following letter from R. K. PUCKLE, Esq., Collector of Tinnevelly, to the Secretary to the Board of Revenue, dated 19th February 1873, No. 81:—

I HAVE the honour to forward my report on the settlement of this district for January 1873.

- 1 Map showing the classification of lands in the 2nd group villages under the lower irrigation of Palayan Channel, Tinnevelly Taluq.
- 1 Do. do. in the 3rd group.
- 8 villages, 2nd group.
- 8 Do. 3rd do.

2. The 2nd and 3rd group villages under the lower irrigation from the Palayan Channel in the Tinnevelly Taluq were inspected and laid out for settlement as per maps enclosed.

3. These villages differ from those in the 1st group inasmuch as the soil is entirely red and the irrigation with few exceptions is from channel-fed tanks and not from the channel itself. Both tanks and channel are very greatly in need of repair, but I hope to see all put in order this year. There is a sanctioned estimate of 10,000 Rupees for clearing out the channel, and the villagers are prepared to execute the greater part of the earth-work for the repair of the tank banks themselves. We shall, however, need some further aid for the repair of the masonry works in the tanks, but the cost can be met from the allotment for agricultural repairs, and I am in communication with the District Engineer on the subject.

4. The system that I have adopted for charging for 2nd crop is as under:—

In the 1st group villages composition is compulsory for the entire irrigated area at—

Two-third of the single-crop charge for 1st class lands.	
Half do. do. do. 2nd „ do.	
One-third do. do. do. 3rd „ do.	
One-fourth do. do. do. 4th and for all lower classes.	

In the 2nd group villages composition is compulsory at the above rates as far as the 3rd class only, and in the 3rd group villages there is no compulsory composition at all, but composition is optional at the above rates in the first four classes and at quarter in all lower classes. In the 2nd and 3rd group villages now reported on there are no 1st class lands, hence half of the 1st crop charge will be the highest rate of composition for 2nd crop.

5. This completes the Palayan Channel, the great line of irrigation in the Tinnevelly Taluq south of the river. The 2nd and 3rd group villages under this channel comprise an aggregate area of 17 square miles and yield a revenue of 38,000 Rupees.

6. In all these villages the common lands have been divided and the palmyras counted, the field stones have been sunk to the ground-level, about 1,000 puttas have been transferred, and a fresh registry of the lands has been made.

ENCLOSURES Nos. 1 and 2.—Maps.

Approved.

(A true Copy and Extract.)

(Signed)

J. GROSE,
Secretary.

To the Collector of Tinnevely, with two maps returned.
Copy to the Director of Revenue Settlement.
