*Proceedings of the Madras Government Revenue Department,
21st July 1874.*

No. 155. Read the following Proceedings of the Board of Revenue, dated 11th July 1874, No. 1,777:—

Read the following letter from G. VANSAGHNEW Esq., Collector of Nellore, to J. GROSE, Esq., Secretary to the Board of Revenue, dated 28th May 1874, No. 1,079.

I HAVE the honor to forward rough designs, prepared at my request by the District Engineer, for a new Huzar Cutcherry building and a new Press Office. It is proposed to retain the existing Treasury and Record-rooms. The rest of the buildings Mr. R. Smith has "no hesitation in stating that it would be a mistake to attempt to repair," and, indeed, it is now many years since they were utterly condemned by the Public Works Department, and the time has now arrived when it is absolutely necessary that steps should be taken to provide a new building.

2. The approximate estimate of the cost of the new Cutcherry is only Rupees 40,000, that of the Press Office being Rupees 12,000. Rupees 3,000, Mr. Smith informs me, will also probably be required for the repair of the present Treasury and Record-rooms, and thus a total of Rupees 55,000 is reached.

3. Mr. Thornhill, the Board's First Member, inspected the existing buildings a few months ago, and is aware of their general dilapidation; and I believe he quite agreed with me that nothing could be more suitable than the present site. Mr. Thornhill also inspected the Tahsildar's Cutcherry at Nellore, and agreed with me that the accommodation provided by it is wholly inadequate to the requirements of so important a taluq, and would not be more than is required by the Deputy-Tahsildar and Town Sub-Magistrate, who now holds office in a sort of open shed which again would not furnish more than sufficient accommodation for the Village Mansif of Nellore, for whose use it might advantageously be appropriated.

4. I have, therefore, to recommend that a new Taluq Cutcherry be built on the standard plan, according to which, the District Engineer informs me, the cost would be Rupees 23,000.

ENCLOSURES Nos. 1 and 2.—Rough Designs.

SUBMITTED for the orders of Government.

2. The Collector of Nellore states that his own office needs to be re-built, and that a new Taluq Cutcherry is wanted in Nellore.

3. In re-building the Collector's Office, it is proposed to repair and retain as detached buildings the present Treasury and Record-room. A new Press Office is wanted, and will be a third detached building. The remainder of the accommodation is to be provided in the central building. The cost is roughly estimated at Rupees 55,000, viz:—

	RS.
Central building	40,000
Press Office	12,000
Repairs to Treasury and Record-room	3,000

4. The accommodation is far more limited than that approved for a Collector's Office in G. O., dated 31st March 1871, No. 601. There is no Court-room, but there is a room upstairs for the Local Fund Board which can be used as a Court-room when necessary. It must be remembered that there is no better site than the existing site which does not admit of much larger buildings. Moreover, the building which the Government Architect has designed to provide the accommodation approved in G. O., dated 31st March 1871, No. 601, is roughly estimated to cost no less than Rupees 1,40,000. The Board are consulting some of the Collectors on the subject before submitting the design to Government.

5. The new Taluq Cutcherry at Nellore must be built on the standard plan as modified by G. O., dated 3rd October 1873, No. 1,060. The old one should eventually be made over to the Town Deputy-Tahsildar and Sub-Magistrate.

*Proceedings of the Madras Government, Revenue Department,
21st July 1874.*

6. The Board are informed by their First Member that when he was in Nellore lately he examined the buildings which have been referred to in these Proceedings, and that he found them to be such as the Collector describes. He also discussed the particulars of the accommodation provided in the plan of the proposed new Collector's Office, and was satisfied, though he thinks the Press building is somewhat too large.

7. The Board resolve to recommend Government to accept the Collector's proposals, and to provide funds as soon as they can, especially for the new Collector's Cutcherry.

No. 156.

ORDER THEREON, 21st July 1874, No. 899.

Miscellaneous.

THE Government would defer the consideration of the erection of the Huzur Cutcherry at Nellore till the general design for such buildings stated to be under the consideration of the Board is submitted.

2. Orders will be issued from the Public Works Department for the preparation of the necessary plans and estimate for the Taluq Cutcherry at Nellore.
