MADRAS RECORD OFFICE

GOVERNMENT OF MADRAS

Revenue DEPARTMENT

G.O. No.	772	Press
B.P. No.		Mis.

Dated 3rd August 1968 74.

Not to be folded or roughly handled

Proceedings of the Madras Government, Revenue Department,
3rd August 1874.

No. 24. Read the following Endorsement of the Secretary to Government, Public Works Department, dated Ootacamund, 16th July 1874:—

Read the following Memorandum by Colonel G. W. WALKER, R.E., Chief Engineer, Public Works Department, dated Ootacamund, 15th July 1874.

In the letter of the Inspector of Forests to the Presidency District Engineer, copy of which has been communicated to the Chief Engineer, it is proposed to fix the price of Annamallay Teak, delivered to the Public Works Department at Pothanoor Railway Station, at Rs. 2 a cubic foot, or Rs. 100 a ton, for unsquared timber.

2. It appears also from the Consulting Architect's letter, recorded with G. O., No. 1,148, of 1st May, that any quantity of unsquared Teak timber is obtainable by the Public Works Department from middlemen at Madras at Rs. 82 a ton. Here then is a higher rate of at least Rs. 25 a ton (allowing only Rs. 7 for railway carriage and carriage to depôt at Madras), which at once precludes the Public Works Department from dealing with the Local Forest Department.

3. But in the papers recorded with Revenue Department Order, No. 199, of 13th February, it is stated that Annamallay Teak in large quantities can be delivered on the West Coast for Rs. 1-6-6 a cubic foot; and it is deduced from the details given that the cost of delivery at Pothanoor Railway Station would not exceed Rs. $1\frac{1}{4}$ per cubic foot, or Rs. $62\frac{1}{2}$ per ton. Hence, it appears that the Forest Department desire to make a profit of 12 Annas a cubic foot in dealing with the Public Works Department. It is this high margin of profit, arbitrarily fixed, that has always prevented [illegible] Nilgiris where the Public Works Department have no option (see G. O., No. 352, of 4th February 1871).

4. It rests with Government to fix such a rate of profit for the Forest Department as shall not prohibit the Public Works Department from dealing with them. That rate apparently will be Rs. 10 a ton; which added to Rs. $62\frac{1}{2}$ cost of delivery at Pothanoor, Rs. $7\frac{1}{2}$ railway charges at the lowest rate of 5 Pies per ton mile, and Rs. 2 loading, unloading, and carriage to depôt, makes Rs. 82, the price at Madras.

5. On these terms the Public Works Department can afford to give an immediate order for 30,000 cubic feet or 600 tons of Teak, to be delivered at Pothanoor within the current official year on which the profit to the Forest Department will be Rs. 6,000.

Referred to the Revenue Department for disposal, with reference to Official Memorandum from the Secretary to Government in that department, No. 72, of 12th May.

Together with joint letter from the Presidency District Engineer and Consulting Architect, No. 119, of 30th June, and copy of letter from the Inspector of Forests to the Presidency District Engineer, No. 102, of 6th July.

(Signed) G. W. WALKER, Colonel, R.E.,
Secretary to Government, P. W. D.

Enclosure No. 1.

Official Memorandum from C. G. MASTER, Esq., Acting Secretary to Government, Revenue Department, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Ootacamund, 12th May 1874, No. 72.

The undersigned is directed, with reference to G. O., 1st May 1874, No. 1,143, Public Works Department, to inquire whether the wants of the Consulting Architect and of other

branches of the department cannot be supplied from the resources of the forests under the Madras Government, and to suggest that the Inspector of Forests be furnished with a memorandum showing the kind of timber required and the prices heretofore paid, in order that he may advise on the possibility of Mr. Chisholm's requirements being met from Government depôts at a reasonable rate.

(Signed) C. G. MASTER,
Acting Secretary to Government.

No. 353.

Communicated to the Presidency District Engineer and Consulting Architect for joint report on the subject.

Ootacamund,
18th May 1874.

(Signed) G. W. WALKER, Colonel, R.E.,
Secretary to Government, P.W.D.

Enclosure No. 2.

From Lieutenant-Colonel J. GODDARD, R.E., District Engineer, Presidency, and R. CHISHOLM, Esq., M.S.A., Consulting Architect to Government, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Royapetah, 26th June 1874, No. 110.

We have the honor to acknowledge the receipt of your memorandum, No. 353, dated the 18th May 1874, giving cover to correspondence on the subject of a supply of sawn timber from Burmah.

Enclosures 8.

2. We agree in thinking that a system could be introduced with the view of supplying [illegible] system of depending on the local market and purchasing timber in the log.

3. The Madras Timber Depôt is as follows. The timber is purchased by measurement either by the square of the mean quarter girth or what is termed "sqnare measurement", after being purchased, it is conveyed to the buildings in course of construction, and worked up at once. However quickly this may be done, the timber becomes "stock" and passes through all those processes of depreciation which are so liable to cause heavy losses to the Government.

4. In the system proposed by Mr. Chisholm, it is not contemplated to form a Timber Yard, but to obtain timber from Burmah frequently on tenders. When an estimate is sanctioned, the Range Officer will at once forward to Burmah a list of scantlings required for the whole building, allowing about 10 per cent. over the actual quantity for loss in framing. This timber would arrive before the monetary part of the contract was ready to receive it, and from the fact of its being out before shipment it would arrive in most cases seasoned to a considerable extent.

5. We append a list of the kind of scantlings required which is merely copied from an estimate.

6. We also append a list of the scantlings actually obtained through Messrs. Gordon Woodroffe. These scantlings came by steamer, and were landed exactly at the spot appointed without a single error or loss quantity.

7. The price we could afford to pay is Rs. 120 a ton.

P.S.—The above letter was written before the grant of Rs 46,000 was made for a Timber Depôt. We both consider the establishment of a depôt the best scheme for meeting the timber difficulty.

Enclosure No. 3.

From Colonel G. W. WALKER, R.E., Chief Engineer, Department of Public Works, to the Conservator of Forests, Ootacamund, dated Ootacamund, 22nd June 1874, No. 454.

In forwarding the accompanying copy of orders in the Public Works Department, No. 1,400, dated 9th June 1874, I have the honor to request that you will be good enough to inform the

District Engineer, Presidency, at what cost you can supply Annamallay Teak at the Royapuram Railway Station.

No. 455.

Copy of the above forwarded to the District Engineer, Presidency.

(Signed) G. W. WALKER, Colonel, R.E.,
Chief Engineer, P.W.D.

Enclosure No. 4.

From Captain CAMPBELL WALKER, Officiating Inspector of Forests, to the District Engineer, Presidency, dated Oodoomalapettah, 6th July 1874, No. 192.

In accordance with Colonel Walker's request contained in his letter, No. 454, dated 22nd June 1874, a copy of which is enclosed, I have the honor to inform you that this department is prepared to supply seasoned Teak from the Annamallay Forests delivered at Pothanoor Railway Station at Rs. 2 per cubic foot.

2. I am not in a position to state what the cost of carriage thence to Royapuram may be, as the Gun Carriage and other Government departments, who receive their supplies from the Annamallays, invariably take them over at Pothanoor.

No. 194.

Forwarded to Colonel Walker, R.E., Chief Engineer, Department of Public Works, with reference to his letter No. 454, dated 22nd June 1874.

(Signed) CAMPBELL WALKER, Captain,
Officiating Inspector of Forests.

No. 25. Order thereon, 3rd August 1874, No. 972.

Forests, No. 4.

The Government resolve to lay down the following general rules for the regulation of transactions in timber between the Forest and Public Works Departments:—

(1.) The Forest Department shall sell its timber to the Public Works Department for a price, as nearly as can be ascertained, the same as the market price.

(2.) The Public Works Department shall obtain the timber required by it not from private traders but from the Forest Department.

2. The Chief Engineer's memorandum and accompanying papers will be communicated to the Board of Revenue, who will ascertain from the Collector of Coimbatore at an early date whether the requirements of the Public Works Department as therein stated can be met, and whether, under the rules above recorded, the price at Pothanoor will exceed or fall short of that which the Chief Engineer intimates his department can afford to pay.

(True Extract.)

(Signed) C. G. MASTER,
Acting Secretary to Government.

Recommendations by the Chief Engineer, Dept. Pub. Works.

In the letter of the Inspector of Lands of the Pembroke Division, copy of which has been communicated to the Chief Engineer, with a view of ascertaining whether any of the Lots mentioned in the Public Notice, dated at Pembroke, 26th. of February instant, and published in the Ottawa Times, Citizen and Packet newspapers, on the 2nd., 9th., 16th., 23rd., and 30th. ultimo, and 6th. instant, for the sale of Timber limits, on the Upper Ottawa, and its tributaries, are required for the purposes of the Public Works, I have the honor to report, that I have caused the Public Notice, dated at Pembroke, 26th. of February instant, and published in the Ottawa Times, Citizen and Packet newspapers, on the 2nd., 9th., 16th., 23rd., and 30th. ultimo, and 6th. instant, for the sale of Timber limits, on the Upper Ottawa, and its tributaries, to be examined by the Public Works Agent, at Pembroke, and he has reported to me, that none of the Lots mentioned in the said Notice, are required for the purposes of the Public Works.

stated that Brownsville &
Fort St. Lucie proportion
can be delivered at the
West Coast for $1-6-6 c.
Cube foot, and the de-
livered from the distrib-
ution, that the cost of de-
livery at Jupiter would be
$1 1/4 per Cubic foot,
or $62 1/2 per Sec. Hence
it appears that the Forest
Dept. alone should furn-
ish of 12 Reservations C.F.D.
in planting near the P.O.
Dept - It is the right man:
ner of furnishing and distributing
fuel, that has already pre-
vented Reservations between
the two Departments on a
large scale, except as fol-
low the P.O. Dept. have
to obtain. (See S.O. No. 352
of 4th Aug 1892.)
It rests with Sec. to fix
upon a rate of charge for
the Forest Dept. as must
be performed the P.O. Dept.
Then only must the
Fuel be delivered and
the $1 to Sec. & which cannot

$62½
ed to cost of delivery at
Jupiter ~~would be $1 1/2~~
~~the nearest Railway~~
$1 7½ Railway charges at
the lowest rate of 5 pie
per Sec. Mile and $2
for loading unloading and
conveyage to depot, makes
$82 the price at Brandon
on these terms the P.O.
Dept. can afford to give
an immediate order for
$30000 C.F. or 600
Secs of Feet, the stati-
oned at Jupiter not
on which the Forest Dept.
Forest Dept. will be $6000.

Commanding C.C.S.
Chief Insp. D.F.D.

Referred to the Revenue
Board &c. &c. &c.
By Order
[illegible]

I should state the following Rule, as I
to exist now:—

1. That the Board of Superintendent
should not in future, collect the
Land Revenue of the Provinces
Ceded to the H.E.I. Co. by the
Treaty of Peace with Scindia
the Nizam and the Peishwa
but that the Collection
of the Revenue of the Ceded
Provinces should be entrusted
to the Commissioners
appointed for the Conquered
Provinces

2. That Forts should be

being agreed, that the Pl. the Defts. should be barred (as a relief to secure a set from subsequent creditors, but from the Deeds of Deft: for the purpose aforesaid) that the suit cease the Pl. first pursue recorded by the Sheriff in execution of the process of the Court for the Pl. - in the second, if a sale of one Defts. property, for the process of execution, & not of the process of the Court.

Colonel Walker's suggestion recommended in accordance with their Resolve, & they should be acted upon -

For the sake of financial relief - it is better that such bills should be dismissed for by each Defts. on the Plaintiffs receiving a certificate from the Treasurer, of the amount of the Defts. debt. Debtor and

Pl. for Pl. in the first record case - Plaintiff in execution at suit for, - in the first at suit for Plaintiff for the debt of Creditor.

Colonel Walker's suggestion recommended in accordance with their Resolve, & they should be acted upon -

For the sake of financial relief - it is better that such bills should be dismissed for by each Defts. on the Treasurer receiving a certificate from the amount of the Defts. debt. Debtor and

Revenue Department.

No. 972

Proceedings of the Madras Government.

Under date the 3rd January 1844.

Read the following Memo. by the Chief Engineer, dated

Regarding requirements of timber for the use of works and the measures of procuring it.

(M.E. to Govt. 19th Dec. 1843 with 4 Enclosures from Supt.)

Memorandum by the Chief Engr. Regarding requirements of timber for the use of works and the measures of procuring it.

Read the following letter from the Superintendent Nilgherry Plantations, dated 15th Instant, with 4 Enclosures, regarding the supply of timber for the Government Works in the Nilgherries.

Ordered, that a Copy of the Superintendent's letter be forwarded to the Board of Revenue, with a request that they will report their opinion as to the practicability of the measures proposed by the Superintendent.

No. 3 Despatch from the Board of Revenue, dated 17th January 1844.

Copy forwarded to Superintendent Nilgherry Plantations.

Copy forwarded to Chief Engineer.

214
