Proceedings of the Madras Government, Revenue Department,
10th October 1874.

Read the following letters:—

No. 108. From Colonel F. J. B. PRIESTLEY, Superintendent of Revenue Survey, to the Secretary to Government, Revenue Department, dated Chepauk, 19th September 1874, No. 2,522/80.

In obedience to the instructions contained in Proceedings of Government, dates and numbers as per margin, I have the honor to forward copies of maps enumerated in the appended list.

Dated 4th March 1874, No. 205
" 19th May " " 600.
" 17th June " " 741A.

2. It will be observed that, notwithstanding the efforts we have made with the small means at our disposal to furnish complete maps of the country included in an entire district or section of a district, it has been found impossible to do so. As the unsurveyed portions, however, are generally small and consist chiefly of wild, mountainous, and jungly country, it has been thought better to fill them in the maps now submitted from the work of former surveys; these incomplete portions are, from their wild nature, in most instances but little changed, and their total omission would perhaps have considerably lessened the value of the maps. I may add that, in many cases, these tracts are under survey and will be shown in the next edition.

3. With regard to execution, I have to observe that, had not these maps been so urgently called for, I should have wished not to supply some of them in their present state; it will, I trust, be remembered that the Photo-lithographic Establishment here has been set on foot, with no assistance from without, by an officer who devoted a part of his leave at Home to studying the process in the Office of the Director of the Ordnance Survey at Southampton. With subordinates, all natives of India who had had no previous training, it may well be imagined that a good deal of our first work has been experimental. To the failure in an experimental process by which the map of Chingleput was being prepared is due the completion of only one of the three sheets composing that district.

4. Nine additional sheets of district maps are actually in progress and will shortly be furnished.

Enclosure No. 1.
