Proceedings of the Madras Government, Revenue Department,
31st July 1875.

No. 338. Read the following Proceedings of the Board of Revenue, dated 24th July 1875, No. 2,070 :—

Read the following letter from W. LOGAN, Esq., Acting Collector of Malabar, to H. E. STOKES, Esq., Acting Secretary to the Board of Revenue, dated Calicut, 22nd July 1875, No. 237.

I REGRET to have to inform you that the cholera epidemic has reached this district. I had some intelligence last evening from the Calicut Tahsildar, and I have this morning satisfied myself that the outbreak is of cholera in the epidemic form. Nineteen deaths are reported within the last few days from the Kovur and Iringalur Amshoms, and two persons at least were this morning still laboring under the disease. I shall report particulars as soon as I have made a circuit of the infected tracts, which lie some eight or ten miles inland. I have telegraphed to the Surgeon-General, Indian Medical Department, for additional medical aid, as I apprehend that the disease will run its course through the district, and I have at present only my own Dresser available for this additional service. I propose to utilise the Vaccination Department as much as possible. In conclusion, I beg that the Board will support me in incurring the expenditure that may be necessary for providing medicines and disinfectants, although the budget allotment of this Circle for medical stores seems to have been already entirely utilised.

SUBMITTED for the information of Government.

2. The necessary expenditure for medicines, &c., may be incurred subject to adjustment hereafter.
