*Proceedings of the Madras Government, Revenue Department,
31st July 1875.*

No. 344. Read the following Proceedings of the Board of Revenue, dated 10th July 1875, Miscellaneous No. 6,234, Forest No. 252 :—

Read the following letter from A. McC. WEBSTER, Esq., Collector of South Canara, to H. E. STOKES, Esq., Acting Secretary to the Board of Revenue, dated Mangalore, 30th June 1875, No. 1,191.

As directed in G. O., dated 2nd November 1874, No. 1,383, communicated in the Board's Forest Miscellaneous No. 334/8,191, dated 23rd idem, I have the honor to report on the manner in which Mr. Cherry, the Deputy Conservator of Forests, has performed his duties.

2. At the end of October Mr. Cherry proceeded to the Upperangady Taluq and remained there until the 6th November, when he accompanied me on a tour through the Coomery country in the Kassergode Taluq. Our tour took up fourteen days, and Mr. Cherry left me at Soolbag and returned to Parappa, where he waited for the Inspector of Forests, and, on the latter's arrival, they joined my camp at Sirady. Mr. Cherry remained with the Inspector of Forests until that officer left the district.

3. After the Christmas holidays Mr. Cherry proceeded to the Kundapur and Udipi Taluqs, and was engaged in superintending timber auctions. On his return in February he proceeded to the Kassergode range and remained there until the end of the month, making a rough survey of the Parappa Teak plantation. In March he went to the Upperangady Range for some days, went through the forester's accounts, and inspected some jungles he thought it would be advisable, if possible, to demarcate and reserve.

4. On the 1st April he commenced the preparation of lists of jungles which he proposed to demarcate, and he and his establishment were fully occupied in this work until the end of May 1875, when the approach of the monsoon necessitated his return to Mangalore. I am glad to say that, notwithstanding Mr. Cherry and his establishment were employed in the most feverish taluq of the district, and during the hottest and most feverish months, they escaped any bad fever, although they had slight attacks of the disease.

5. Mr. Cherry has thus, from 1st November until 31st May, been absent from headquarters 149 days, and has travelled 889 miles, *vide* statement attached.

6. It gives me great pleasure to testify to the ready manner in which Mr. Cherry has done whatever he has been requested to do. He has had exceptionally hard and unhealthy work to perform in inspecting the jungles he proposes to demarcate, and has worked cheerfully and to my entire satisfaction. The result is that I have now received from him maps and lists of hills and jungles extending from the slopes of the Kudre Mookh to Sirady, and comprising an extent of about 300 square miles.

SUBMITTED to Government with reference to G. O., dated 2nd November 1874, No. 1,383.
