Proceedings of the Madras Government, Revenue Department,
12th August 1875.

No. 116. Read the following Proceedings of the Board of Revenue, dated 22nd July 1875, Miscellaneous No. 6,637 :—

Read the following letter from H. S. THOMAS, Esq., Collector of Tanjore, to H. E. STOKES, Esq., Acting Secretary to the Board of Revenue, dated Point Calimere, 29th June 1875, No. 233.

I HAVE the honor to forward, for the favorable consideration and orders of the Board of Revenue, a letter from the Deputy Collector in charge of the Salt Department, recommending that an additional smith be employed on a salary of Rs. 30 per mensem for repairing and setting the salt-weighing machines in this district.

2. There is only one man at present employed; and as the sea-coast line is a long one, and there are no less than nine salt stations, his visits to each station are not so frequent as is desirable, and hence very often salt weighments have to be conducted when the machine is not absolutely correct.

3. A slight disorder in the machine causes considerable difference in the quantity weighed, and it is necessary, both for the detection of fraud and the protection of the salt officials, that the machine should be continually inspected by the smith and adjusted.

4. Under these circumstances, I beg that the Board will be good enough to sanction the proposal of the Salt Deputy Collector to employ two smiths for this district, one to inspect the stations of Neidavassal, Tranquebar, and Negapatam, and the other Vedarniem, Thumbikinellavancottai, Adrampatam, Cattumavadi, and Arandanghy.

SUBMITTED for the favorable consideration of Government.

2. The entertainment of an additional smith appears necessary.

3. These mechanics were added to the establishments of Salt Deputy Collectors under G.O., dated 15th January 1869, No. 106.
